Des Moines Street Cars Stop SERVICE SUSPENDED AT MIDNIGHT; MUST USE AUTO OR WALK

(BY A. P. NIGHT WIRE.)
DES MOINES (Iowa), Aug. 3.—Des Moines street cars began going to the barns at midnight in accordance with the Federal order calling for cessation of service because the company was unable to meet its obligations. All cars are expected to be in the barns by 1 a.m.

DIG FRAUD BIS CHARGED.

Internal Revenue Bureau Accused.

Employees of Income Tax
Division Said to Have
Betrayed Government.

WASHINGTON, Aug. 3.—That the Internal Revenue Bureau has betrayed the government by leaking information to the public regarding the income tax returns of the wealthy is the charge made by a group of men who claim to be former employees of the bureau.

RED TROOPS JOIN MOB; WORLD DISASTER NEAR. Six Million Peasants Moving on Capital; Leaders Frantic, Seek to Save Situation.

(BY CABLE-EXCLUSIVE DISPATCH.)
BERLIN, Aug. 3.—Red troops sent to halt the 6,000,000 hunger-driven peasants advancing over the provinces of Tambov, Voronezh and Penza toward Moscow have joined the peasants and are now moving on the capital of the soviet republic. The Times correspondent was informed today by a source in close touch with conditions in Russia. The government is hurriedly preparing for the defense of the city.

The peasants are moving chiefly in four directions—toward Moscow, Siberia, the Caucasus and Ukraine. The peasants of Western Russia are now all on the move, and famished, stricken mobs have reached Smolensk.

Troops sent to halt this advance thus far have failed. The situation in Samara and Saratov provinces is most critical. Driven almost insane by hunger and cholera, the peasants are deserting their children, the number abandoned in Samara alone reaching 40,000.

Stories brought out of Russia by refugees all agree that while it is still impossible to determine the real cause of this catastrophe, after four years of Bolshevik rule, one fact is certain—that the catastrophe is bound to reach proportions which the world never has seen before, and that this will bring the downfall of the soviet regime.

Maxim Gorky, the leader in Russia's attempt to get help from western nations and every province of the world is being urged to meet the emergency.

Persons lying in the districts nearest to the downtown loop are being urged to walk as much as possible in order that those living farther out may ride.

NO RELIEF IN SIGHT.
With the bus owners promising only emergency service until the City Council grants them franchises from one to five years, no relief from the condition is in sight. Suspension of the street-car service is the culmination of a struggle of several years. Company officials say that the situation is the direct result of the inability of the city to operate under a 5-cent franchise with bus competition and under an 8-cent fare with unrestricted bus competition.

FEAR PRIEST HAS
MET FOUL PLAY.
SAN FRANCISCO, Aug. 3.—Search was being conducted tonight for Father Patrick E. Heslin, pastor of Holy Angels Catholic Church, at Colma, a few miles south of San Francisco, who disappeared last night. According to the priest's housekeeper, he went out last night in response to a stranger's summons for a sick call. Today the country to the southwest of there was searched without result.

CONFIRMACY CHARGED.
It is charged that Weston entered into a conspiracy with two of his men, one of whom resigned in 1917.

WAGE ATTITUDE THIS WEEK.
Brotherhoods to Get Eastern Roads' Decision on Working Conditions Soon.

NEW YORK, Aug. 3.—Attitude of the big eastern railroads toward wage decreases and the elimination of time and one-half for overtime work, train and yard service workers will be communicated to the big railroad brotherhoods and the Switchmen's Union of North America this week. This was announced tonight following a conference between the heads of the railroad organizations concerned.

WASHINGTON, Aug. 3.—That the Internal Revenue Bureau has betrayed the government by leaking information to the public regarding the income tax returns of the wealthy is the charge made by a group of men who claim to be former employees of the bureau.

LATEST NEWS

ROBBED BY BANDITS
Held up by two masked men at Figueroa and Broadway streets at midnight last night, R. A. Norton of Pomona was robbed of \$4, according to his report to the University police.

SID HATFIELD BURIED
MATEWAN (W. Va.), Aug. 3.—The tempestuous and picturesque career of Sid Hatfield and his former lieutenant, Ed Chambers, shot in a gun fight at Welch, Va., last Monday, were closed today with their burial at Baskirk, Ky., opposite Matewan.

CHARGED WITH MURDER
SAN FRANCISCO, Aug. 3.—W. T. Fahy, San Francisco police officer charged with the fatal shooting here last June of Albert Braun of Los Angeles, was arraigned before Judge Leland today. The case was postponed until tomorrow afternoon.

RESTAURANT HELD UP
Police early this morning were searching the city for two bandits who entered a restaurant at 447 South Los Angeles street, held up Ralph Carver, night cook, and made off with \$15, taken from the cash register. Carver says he was in the refrigerator and was released by a customer who entered after the hold-up men had fled.

YOUTH NOT KIDNAPED
MUSKOGEE (Okla.), Aug. 3.—Police tonight asked authorities of Tulsa to look for a young man in the garb of a girl. Malcolm Etheridge, 18, supposed victim of a kidnapping plot which caused 500 men to scour the city and adjoining territory last night, had tonight been traced to Tulsa. Smith and police were convinced he had disappeared of his own accord.

GIRL HURT; DRIVER HELD
Louis Fair, 18 years of age, of 191 Buena Vista street, was painfully injured last night when, as he was driving a car, he ran over a young girl, 10 years of age, who was crossing the street at the intersection of Buena Vista and Fourth streets. The girl was rushed to the Receiving Hospital, where she was treated for a fractured skull. The driver was held by police and is being investigated by Detective Sergeant Hickey.

FIX DATE OF CONFERENCE.
None of Powers Has Objected to Beginning Disarmament Parleys on Armistice Day.

(EXCLUSIVE DISPATCH.)
WASHINGTON, Aug. 3.—President Harding has made formal suggestion to the powers invited to participate in the Washington conference on reduction of armaments and disarmament. The conference is to begin on the anniversary of Armistice Day, November 11. So far no objection to this date has been received and State Department officials said today they believed the time could be considered fixed, tentatively at least.

The matter of the time, however, has not been closed, officials said, and it will be several days before the formal invitations to the conference are issued, probably not until the President returns from his vacation in New Hampshire.

BRITAIN RUSHES WARSHIPS.
Commons Voted to Start Construction of Four Capital Vessels as Urged by Admiralty.

BY JOHN STEELE.
(BY CABLE-EXCLUSIVE DISPATCH.)
LONDON, Aug. 3.—The laying down of four capital ships, battle cruisers of the Hood type, carrying sixteen-inch guns, as urged by Secretary Amery of the Admiralty in the House of Commons, was voted this afternoon. He said the policy, which has been approved by the Naval Committee, was not competitive or a challenge, but was merely to replace obsolete ships. Mr. Amery declared the ships should be begun before the Washington conference.

TEMPERATURES IN
PRINCIPAL CITIES.
Following were the maximum and minimum temperatures yesterday in various eastern cities compared with Los Angeles:

City	Max.	Min.
New York	64	60
Boston	72	60
Philadelphia	72	60
Cincinnati	78	66
Chicago	74	65
Indianapolis	78	62
St. Louis	80	64
Omaha	82	60
Kansas City	76	64
St. Paul	80	64
Winneapolis	80	64
Huron	80	64
San Diego	81	58

PORTLAND CONCERNS
CUT GASOLINE PRICE.
PORTLAND (Or.), Aug. 3.—All oil companies operating in Portland today announced a reduction of 2 cents in the price of gasoline, bringing the cost down to 28 cents and 25 cents a barrel for crude oil which now costs \$1.55 at the tanks or \$2 delivered.

BAY CITY UNIONS BUILDING TRADES QUIT; CARPENTERS DEFY ORDER OF NATIONAL PRESIDENT

(EXCLUSIVE DISPATCH.)
SAN FRANCISCO, Aug. 3.—All building trades artisans who are employed in San Francisco and San Mateo counties tomorrow are to be considered by the general conference committee disloyal to their unions. The general building trades strike became effective in the two counties at midnight tonight and the general conference committee of the building trades unions of the bay cities seeks to extend it to the Hawaiian Islands.

All building trades artisans on the islands who are affiliated with local district councils have been ordered by cable to walk out. The order was issued by the general conference committee of the building trades unions of the bay cities. They have no assurance that the order will be obeyed. No building trades exist in Hawaii because of the so-called American plan of employment. The efforts of the general conference committee to have the Alameda county unions act favorably on a general building trades strike have not ceased. The Building Trades Council of Alameda county on Tuesday night refused the overtures of the local general conference committee for a general strike sanction.

TO EXTEND ACTION.
Efforts will be made during the coming week to have the general building trades unions of Contra Costa and Marin counties. Committees will be sent to get action.

The fifteen carpenters' organizations affiliated with the International Brotherhood of Carpenters today acrossed the currency, accused resentment by the system's two highest officers, Gov. Harding of the Reserve Board and Gov. Strong of the New York Reserve Bank.

LIE IS PASSED.
A few minutes later, Strong, while reading to the commission a report which charged Williams with "false and misleading statements," was interrupted by the former Controller, who shouted:

GOV. HARDING AND STRONG OF

**House Sends
Trophies Bill
to Committee.**

(BY A. P. MORTIMER)
WASHINGTON, Aug. 3.—After five hours of debate a Senate bill authorizing distribution of State and municipal trophies of war and other war materials captured by the Americans from the Germans was recommended today by the House to the Military Committee by a vote of 155 to 35.
A motion appropriating \$400,000 for the distribution was eliminated on a point of order by Representative Garrett, acting Democratic leader, but the House, by a vote of 155 to 150, immediately rejected an amendment to require committees receiving the trophies to pay all transportation and packing charges.
Before the motion was adopted, the bill, which provided that States should share in the distribution in proportion to the number of troops furnished during the war, was amended so that the distribution would be made by Congressional delegations, instead of by governors as the Senate had decided.
Chairman Kahn of the Military Committee reported that \$4,000 trophies, including 70,000 rifles, 10,000 machine guns and 2,000 field guns and trench mortars, were in storage.

Florsheim Oxfords
\$9.85
Specially priced for a clean sweep of our entire stock—every pair—any style—brogues, ball straps—all the late colors, leathers, lasts and patterns.
We're going to make this a whirlwind selling of high grade footwear—we've sacrificed profit—we're giving you unlimited choice of all Florsheim oxfords at \$9.85.

Remington Portable
For every man, woman & child who has writing to do
Remington Portable
To you, typewriting is a means to an end, but think of the education it affords your child!
The Remington Portable is a capable, companionable, individual typewriter, built for the use of the man in his business or profession, the woman in her home, the child attending school—in fact, for every man, woman and child who writes.
It is the most compact of all writing machines. Fits in a case only four inches high. Like every Remington, it is strong, speedy, durable and turns out beautiful work.
—and mark this: It has the Standard Writing Keyboard with which you are familiar—no shifting for figures. Small as it is, the operation of a Remington Portable is exactly like writing on a Standard machine. Just as easy, just as swift, just as simple.
Price, complete with case, \$60.
REMINGTON TYPEWRITER COMPANY
(Incorporated)
420-424 South Spring Street, Los Angeles
Phone, Broadway 6220

The Baldwin Piano
—with its satisfying tonal qualities, its beautiful case architecture and workmanship, is the ultimate in instruments of quality.

**MAY INCREASE
SURTAX RATES.**

Would Affect Incomes of \$6000 to \$50,000.

Maximum May be Cut in Half, Report.

House Committee Discusses Treasury Proposals.

(REUTERS DISPATCH)
WASHINGTON, Aug. 3.—Increase in surtax rates on all individual net incomes ranging between \$6,000 and \$50,000 are in prospect if Congress approves suggestions of the Treasury Department. It became known today. These increases are proposed to offset the loss in revenue in prospect from the reduction of the present maximum surtax rate of 65 per cent to 32 per cent.
The proposal to increase the surtax rates in the lower brackets, however, as well as other new taxes proposed, is meeting with opposition from members of the House Ways and Means Committee. Secretary of the Treasury Mellon has been requested to appear before the committee again tomorrow, and it is probable that he will be asked whether it is not possible to repeal the excess profits tax and the new surtaxes and cut the transportation tax in half, without imposing any new taxes other than the increased corporation income tax.

DETAILS NOT KNOWN.
Not all the details of the proposed committee surtax rates have been made public. Apparently it is intended that the present surtax rate on that portion of the net income exceeding \$10,000, but not exceeding \$20,000, shall remain 1 per cent, the program being also not to disturb present normal tax rates of 4 per cent on the net income under \$4,000 and 8 per cent upon the amount over that sum.
The present surtax rate on the portion of the net income exceeding \$20,000, and not exceeding \$30,000, is 2 per cent. A rate of 3 per cent applies on the amount between \$30,000 and \$40,000, and 4 per cent on the amount between \$40,000 and \$50,000. The rate advances 1 per cent for each \$10,000 until a 48 per cent rate is reached for the amount between \$28,000 and \$30,000. Rates above that amount at present are 52 per cent, between \$30,000 and \$40,000; 56 per cent, between \$40,000 and \$50,000; 60 per cent, between \$50,000 and \$60,000; 64 per cent, between \$60,000 and \$70,000; 68 per cent, between \$70,000 and \$80,000; 72 per cent, between \$80,000 and \$90,000; 76 per cent, between \$90,000 and \$100,000; 80 per cent, between \$100,000 and \$150,000; 84 per cent, between \$150,000 and \$200,000; 88 per cent, between \$200,000 and \$500,000; 92 per cent, between \$500,000 and \$1,000,000; 96 per cent, between \$1,000,000 and \$5,000,000; 100 per cent, between \$5,000,000 and \$10,000,000; 104 per cent, between \$10,000,000 and \$50,000,000; 108 per cent, between \$50,000,000 and \$100,000,000; 112 per cent, between \$100,000,000 and \$500,000,000; 116 per cent, between \$500,000,000 and \$1,000,000,000; 120 per cent, between \$1,000,000,000 and \$5,000,000,000; 124 per cent, between \$5,000,000,000 and \$10,000,000,000; 128 per cent, between \$10,000,000,000 and \$50,000,000,000; 132 per cent, between \$50,000,000,000 and \$100,000,000,000; 136 per cent, between \$100,000,000,000 and \$500,000,000,000; 140 per cent, between \$500,000,000,000 and \$1,000,000,000,000; 144 per cent, between \$1,000,000,000,000 and \$5,000,000,000,000; 148 per cent, between \$5,000,000,000,000 and \$10,000,000,000,000; 152 per cent, between \$10,000,000,000,000 and \$50,000,000,000,000; 156 per cent, between \$50,000,000,000,000 and \$100,000,000,000,000; 160 per cent, between \$100,000,000,000,000 and \$500,000,000,000,000; 164 per cent, between \$500,000,000,000,000 and \$1,000,000,000,000,000; 168 per cent, between \$1,000,000,000,000,000 and \$5,000,000,000,000,000; 172 per cent, between \$5,000,000,000,000,000 and \$10,000,000,000,000,000; 176 per cent, between \$10,000,000,000,000,000 and \$50,000,000,000,000,000; 180 per cent, between \$50,000,000,000,000,000 and \$100,000,000,000,000,000; 184 per cent, between \$100,000,000,000,000,000 and \$500,000,000,000,000,000; 188 per cent, between \$500,000,000,000,000,000 and \$1,000,000,000,000,000,000; 192 per cent, between \$1,000,000,000,000,000,000 and \$5,000,000,000,000,000,000; 196 per cent, between \$5,000,000,000,000,000,000 and \$10,000,000,000,000,000,000; 200 per cent, between \$10,000,000,000,000,000,000 and \$50,000,000,000,000,000,000; 204 per cent, between \$50,000,000,000,000,000,000 and \$100,000,000,000,000,000,000; 208 per cent, between \$100,000,000,000,000,000,000 and \$500,000,000,000,000,000,000; 212 per cent, between \$500,000,000,000,000,000,000 and \$1,000,000,000,000,000,000,000; 216 per cent, between \$1,000,000,000,000,000,000,000 and \$5,000,000,000,000,000,000,000; 220 per cent, between \$5,000,000,000,000,000,000,000 and \$10,000,000,000,000,000,000,000; 224 per cent, between \$10,000,000,000,000,000,000,000 and \$50,000,000,000,000,000,000,000; 228 per cent, between \$50,000,000,000,000,000,000,000 and \$100,000,000,000,000,000,000,000; 232 per cent, between \$100,000,000,000,000,000,000,000 and \$500,000,000,000,000,000,000,000; **REMOVE LAST
KICK IN RULING.**

Even if You Slip Ginger Ale You Must Put Foot on the Brass Ball.

(BY A. P. MORTIMER)

MADISON, Aug. 3.—Drinkers of nonintoxicating liquor in Wisconsin must stand far enough away from the bar to be unable to place their foot on the rail or to set their glasses on the counter in order to keep from violating the law, according to an opinion of J. E. Messerschmidt, assistant Attorney-General, made public today.

NEW YORK STOCK EXCHANGE.

[BY A. P. NIGHT WIRE.]
NEW YORK, Aug. 3.—Recent
gains in the stock market were ex-

tended in the early trading today,
but the list subsequently relaxed
and sold off to a heavy cloud. The re-

action was attributable primarily to
profit-taking which was perhaps to
be expected in view of the extent of

the advances achieved in the last
two weeks, amounting to ten points
or more in some instances. By the

end of the day early gains among
representative issues were replaced
with losses ranging from substantial

fractions to two points. Trading
was on a moderate basis, amount-
ing to 125,000 shares.

In the forenoon rise rails were
again the leaders, reaching new high
marks in several instances. There

was a good inquiry elsewhere, but
heaviness of other shares, including
United Fruit, gave the list an irregu-

lar appearance. Trading slackened
on the decline and there was no
pressure of offerings except in the

case of a few specialties. Sugars and
some oils were forced down several
points.

Further adjustment of steel prices
lent interest to the action of the
market, selling off with the gen-

eral list late in the day.
Higher money rates had a
tendency to check operations for the

low account. Call money renewed at
5 1/2 per cent and loaned at that
figure throughout the day. The

movement of the foreign money ex-
change was narrow with an easier
tendency. Marks made a new low

record for the year at 1.20.
The bond market continued to
show an improving tendency with

Southern Pacific convertible four
rising almost two points. Liberty
Bonds were higher. Foreign gov-

ernment bonds moved narrowly
aside from the new French republi-
cans, which touched a high record at

95. Total sales, par value, \$11,
400,000.

Guaranty Bank Offering

Serving Southern California

The proceeds of SOUTHERN CALIFORNIA
EDISON COMPANY General and Refunding
Mortgage 6% Bonds, due 1944, will be used for ex-

tensions and improvements to property—making
possible increasingly efficient service to local con-

sumers.

The Southern California
Edison Company supplies
electric light and power to

ten counties in Southern Cal-
ifornia and the San Joaquin
Valley, with an area of over

55,000 square miles and a
population of over 1,500,
000.

Its generating plants have
a present installed capacity
of 884,700 horsepower, of
which 249,500 horsepower is
hydro-electric. Net earn-

ings for year ended June 30,
1921, were over 2 1/2 times
mortgage bond interest
charges, including this is-

sue.

For further information concerning this desir-
able investment, call, phone 10312, or write.

Price 88 and Interest
Yielding 7.07%

An Opportunity
Which May Never Present
Itself Again

United States of Brazil External Sterling 5's

General external obligations of a sound government which is larger than
the United States, France and England combined, (not including Alaska)

has thirty million people, enormous natural resources, and national revenue
of seven and one-half times the interest on its external debt.

In the past Brazil has been financed by England. We have selected a Bra-
zilian Loan out of the many listed on the London Stock Exchange, and

recommend its purchase. It is obtainable at a low price due to double dis-
count on current bond prices and exchange rates.

We invite investors to write for our booklet on the United States of Brazil—it is full
of facts about the great Southern Republic.

R. H. Moulton & Company

Main 260 403 Title Insurance Building 60827

Buying Brazilian Bonds In England
To Sell In America

A client of ours asked us why we went
to England to buy bonds of the United
States of Brazil to sell in Los Angeles.

There was no question in his mind as to
safety nor as to marketability. The wealth
of Brazil satisfied the one, and the fact
that these bonds came from England was

evidence itself of a world-wide market.

We explained to this man that besides
safety and marketability there were two more
elements to be considered in every bond—

and when you have all four you have the
ideal bond.

One of these factors was yield or income,
and being a seasoned loan, we knew that
its interest had always been paid in cash

when due. Besides, buying them in Eng-

land gives the purchaser an opportunity to
add to his income through the improvement
in the value of the pound sterling, which, as
it approaches normal, increases the year to
year yield from 8% to over 10%.

And finally, we explained, a further fea-
ture attracting us to these bonds was the
probability of selling them or having them
redeemed at a much higher figure than the
purchase price. As the pound sterling goes
back to normal the value of these bonds
gradually increases so that if called or sold
at a time when sterling is normal they will
yield, by appreciation alone, over 100%.

These are two reasons why we bought
these bonds and recommend them as un-
usually fine investments. Let us tell you the
details of this offering.

SCIENTISTS OF COAST TO MEET.

Berkeley Will be Host to the Pacific Division.

Relation of Science to Public Health to be Discussed.

Many Prominent Men Are Listed as Speakers.

(By A. F. NICHOLSON.)
The Pacific Division of the American Society for the Advancement of Science, and affiliated societies, will be held here August 4-6. College professors, health authorities, astronomers, chemists, students and others from all parts of the Coast are expected to attend.

PROMINENT SPEAKERS.
Among the speakers on the subject will be Dr. Ray Lyman Wilbur, president of Leland Stanford University; Dr. P. P. Day, professor of pathology at the University of California; Dr. J. H. Henshaw, professor of zoology at the University of California; Dr. H. B. Turner, professor of zoology at the University of Oregon; Dr. W. H. Koster, director of the Scripps Institute for Biological Research of the University of California; Dr. J. H. Henshaw, professor of zoology at the University of California; Dr. H. B. Turner, professor of zoology at the University of Oregon; Dr. W. H. Koster, director of the Scripps Institute for Biological Research of the University of California.

THE CITY AND ENVIRONS.

Governor to Speak.
Gov. Campbell of Arizona will address former residents of that State at Santa Monica today, when the annual reunion of the Arizona Society, according to L. Colodny, former Arizonaan, secretary of the society, will be held at the Pickering Hotel, Santa Monica. The governor will be accompanied by his wife and will be the guest of honor at the reunion. The society is composed of Arizonaans from all over the West and is one of the largest and most active of its kind in the West.

MINING BILL IS PASSED BY HOUSE.

Measure Changes Year for Assessment Work from Calendar to Fiscal.

(SPECIAL DISPATCH.)

WASHINGTON, Aug. 3.—The House has passed and sent to the Senate a measure changing the year in which mining assessment work must be done from the calendar to the fiscal year. Because of various extensions during the mining assessment work was waived for different periods. The last period was up to midnight on June 30 of this year. If the law remains as it is now, all mining assessment work for 1921 must be done before December 31 or the claims will be unprotected by law. The object of this bill just passed and which will soon pass the Senate is to make the year for assessment work and June 30 each year instead of December 31, thus giving all mining claimants until the last of June next year to complete their assessment work and making that the rule for the subsequent year.

The House Committee on Mines and Mining today reported favorably for the passage of Senator Shortridge's bill to relieve the miners who produced war metals at the expense of the government during the war. The committee in making the report made a slight amendment in the bill to specifically authorize the Secretary of the Interior to revive all rejected claims and claims which were in the mails before noon, June 1, 1915.

The important section of the committee report covering this is as follows: "The amount appropriated under the War Minerals Relief Act of March 2, 1915, for the relief of the claims was \$1,500,000. There were filed within the time fixed by the act, 1915, claims for which \$418 were rejected by the Secretary of the Interior upon the ground that claimants failed to establish a right to the minerals. The committee is of the opinion that the Department of the Interior, the War Industries Board, the Shipping Board and the Emergency Fleet Corporation to produce or prepare to produce either manganese, chromium or tungsten.

"In addition to the rejection of the \$418 claims, fifty additional claims aggregating \$178,891.67 were rejected upon the ground that said claims did not reach the office of the Secretary of the Interior by 12 o'clock noon, June 1, 1915.

"In the administration of the law, in a very few cases, it was discovered that mathematical errors were made against claimants. Under authority of the War Industries Board, the Secretary of the Interior, with the approval of the Secretary of the Interior, your committee unanimously recommends the passage of the bill as amended, so as to permit the correction of errors through mathematical errors, and the consideration of the claims deposited in the United States mails, prior to 12 o'clock noon on the 1st day of June, A.D. 1915."

FOWLER TO EXAMINE WATER POWER PERMITS.

(SPECIAL DISPATCH.)

WASHINGTON, Aug. 3.—An announcement was made here today of the appointment as district representative of the Water Power Commission for California of F. H. Fowler, district engineer of the Forest Service, with headquarters at San Francisco. Mr. Fowler will make all the field examinations of applications for power permits, and will have under his direction the examination of the various filings on the Colorado River, including the application of the Southern California Edison Company, and that of the City of Los Angeles at Boulder Canyon.

Paid Fancy Prices

"I paid an international authority on diseases of the stomach \$1500 and he didn't do me five cents' worth of good. I have been to various Spas in Europe, as well as this country, and have spent fully \$30,000 fruitlessly in search of a cure for my stomach trouble. Naturally I lost faith in any remedy for my case. My wife's brother had taken Marry's Wonderful Remedy and praised it so highly that I tried it and am now entirely rid of that trouble." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.—(Advertisement.)

THURSDAY MORNING, AUGUST 4, 1921.—PART II: 12 PAGES.

POPULATION | By the City Directory—(1921)—178,320
By the Federal Census—(1920)—178,000CITY MONEY RECKLESSLY
THROWN INTO GUTTER.

Storm of Protest Over Private Bargain Sale of Bonds at Expense of Other Municipal Interests.

Developments of yesterday made it apparent that by its hurried and unadvised sale of the \$12,500,000 issue of power bonds for \$11,985,000 the city accomplished these things:

- (1) Lost from \$500,000 to \$2,000,000 in real money.
- (2) Tied up \$11,985,000 for over seven months, during which it will pay 4 per cent on it and receive 2 per cent.
- (3) Sacrificed a \$2,500,000 power plant, authorized by the people to be built out of the proceeds of the bonds. The fund is demolished by the \$1,535,000 discount and \$250,000 needless interest the city must pay.
- (4) Seriously interfered with the sale of the harbor and library bonds. The harbor bonds are tied up for sixty days when the money is most urgently needed. Great difficulty will be experienced in getting the value of these bonds, due to the tremendous discount given for the power issue.
- (5) Before the latter's sale the harbor and library bonds would have brought far better.
- (6) Gravely impaired the city's reputation with investment bankers for good sense and fair play by giving one buyer a tremendous bargain and no others a look-in. The hasty, private and unadvised sale was made on a rising bond market and with a good chance of getting far for the bonds a little later. San Francisco on Monday sold \$12,500,000 worth of 4.5 per cent bonds at a premium.
- (7) Acted in bad faith with the people who specified in voting the bonds that they should bear not more than 5 per cent interest. The huge discount granted means that the taxpayers must pay 6 per cent interest on these bonds.

Members of the City Council Finance Committee yesterday heard first hand from several influential representatives of bond houses and banks additional details of the huge loss suffered by the people of Los Angeles by the sale of the power bonds, voted by two-thirds majority of the people for the purchase of the Southern California Edison Company distributing system and to build a \$2,500,000 power plant to supply current.

BIGGER OFFER RECEIVED.

An offer from the Guaranty Company of New York, bidding \$115,000 more than the successful offer of Irving H. Hellman, was telegraphed immediately after that company learned the Council was prepared to sell the bonds. The offer came too late, Councilmen Criswell stated.

Representatives of several large bond houses and banks stated they would have been eager to make better offers than the one accepted, but did not know the Council intended to rush the matter through without any notice. They further said that by accepting such a low figure for the power bonds the market for the harbor bonds has been weakened to such an extent that it is probable nearly 6 per cent interest will be demanded on them instead of the 5-4-4 per cent that would have brought a premium Tuesday.

The proposition put before the committee by the bond men is for the harbor bonds to be offered at an open, advertised and competitive sale, with the understanding that the bonds will not be offered for sale.

Mr. Criswell stated to the committee that bond houses and bank representatives are "very seriously criticizing" the action of the Council in the manner in which the bonds were sold. Once during his talk he asserted the city would make money even if the Hellman contract was invalidated. This was in response to a statement by Mr. Hellman that the plan for selling the harbor bonds might invalidate the Hellman agreement.

Mr. Criswell stated that an issue of \$12,500,000 worth of San Francisco municipal bonds bearing only 3.5 per cent were sold at a small premium on Monday. He cited this as an indication of the condition of the bond market and declared that the Los Angeles bonds sold under the same conditions would have netted Los Angeles at least \$250,000 more than the Hellman offer.

San Francisco advises to The Times last night stated that the bonds referred to by Mr. Hellman are Hetch-Hetchy bonds sold to the Construction Company of North America for sale in the eastern market at a premium of \$10,000.

Mr. Criswell declared it seemed to him strange that so much activity among the bond men should be noticed on the day after the bonds were sold and the city is definitely tied up with an agreement. He said it appeared to him that the bond men began figuring after some one else won the bid and discovered that they could have made money by offering more, but that such offers were not forthcoming at the proper time.

Mr. Simpson replied that some of the bondmen knew the sale was to be made at that time.

The city's answer to the suit brought Tuesday by Attorney Ingie Carpenter to restrain the city from completing the power-bond transaction was filed yesterday. Attorney Ray C. Eberhart, assistant to Mr. Matthews, stated. The city's court order referred to by Mr. Hellman under which the agreement was entered into is constitutional and it will be taken next Friday to the case be set for early trial.

HARBOR BONDS TIED UP.

Mr. Mushet opened the discussion yesterday morning in the Council for reconsideration of the Council's action Tuesday in ordering all bids on the \$12,500,000 worth of harbor bonds to be returned unopened, by making a motion, seconded by Mr. Allen, for reconsideration. He explained that he had voted with the other Councilmen Tuesday in order that the city might be in a position to move for reconsideration.

"I believe the Council acted yesterday under a misapprehension of facts," Mr. Mushet stated. "The contract with Mr. Hellman for the \$12,500,000 worth of power bonds does not conflict with our right to

MAY CLEAR UP
DEATH TANGLE.

Inquest Over Baby to be Held Today at Ventura.

Officials Not Satisfied as to Its Parentage.

Santa Barbara Sheriff Will Join in Inquiry.

Unexplained circumstances in connection with the finding of a dead baby in a suit case on the Rincon highway last Monday afternoon and which led to the detention by Ventura police of Medora Privette, a Los Angeles woman, after she had stated the child was hers, may be cleared up at the inquest over the infant's body in Ventura today.

The woman is charged with shooting her husband in the tent in Balboa, in the presence of two neighbors. She is said to have fired one shot at him outside their tent, and when he fled into the shelter, she is said to have sent three bullets into his body as he lay on the bed.

The man was rushed to the Santa Ana Hospital, but died before he reached it. Constable J. A. Porter of Balboa arrested the woman a short time later.

During yesterday's hearing, Mrs. Campbell seemed to be on the verge of a nervous breakdown. Her face was white and tense throughout the proceedings and frequently she turned her head and leaned against a woman at her side and sobbed.

On a number of occasions it was necessary for the court to stop proceedings until Mrs. Campbell could be quieted.

Following the introduction by the State of the revolver and the bullet which killed Campbell, a number of witnesses were called. Mrs. Alice E. Carson, who was in the tent at the time of the tragedy, testified that she was sitting with Mrs. Campbell when she fired the shot. Mrs. Carson said that Mrs. Campbell then followed him in and, leveling her gun, fired three more shots at the prostrate figure.

Prof. Lorentz described in detail the shooting as she declared she saw it from close range. Dr. G. M. Grundy of Balboa, who was the first to reach the man's side with medical aid, and Constable Porter, also testified.

After spending several days in San Francisco, conferring with union leaders and operators, Capt. Charles L. Connelley, who is in charge of the President's Military Commission, returned to Los Angeles yesterday to renew his efforts here to avert a strike of the oil workers.

Officials of the Chamber of Mines and Oils in this city last night said that the oil workers' strike is the latest move of the union workers. However, they stated they had no information as to whether the workers are ready to accept a new agreement with the men and the Federal government they will not accept it.

Mr. Kolkoff stated to the committee that bond houses and bank representatives are "very seriously criticizing" the action of the Council in the manner in which the bonds were sold. Once during his talk he asserted the city would make money even if the Hellman contract was invalidated. This was in response to a statement by Mr. Hellman that the plan for selling the harbor bonds might invalidate the Hellman agreement.

Mr. Criswell stated that an issue of \$12,500,000 worth of San Francisco municipal bonds bearing only 3.5 per cent were sold at a small premium on Monday. He cited this as an indication of the condition of the bond market and declared that the Los Angeles bonds sold under the same conditions would have netted Los Angeles at least \$250,000 more than the Hellman offer.

San Francisco advises to The Times last night stated that the bonds referred to by Mr. Hellman are Hetch-Hetchy bonds sold to the Construction Company of North America for sale in the eastern market at a premium of \$10,000.

Mr. Criswell declared it seemed to him strange that so much activity among the bond men should be noticed on the day after the bonds were sold and the city is definitely tied up with an agreement. He said it appeared to him that the bond men began figuring after some one else won the bid and discovered that they could have made money by offering more, but that such offers were not forthcoming at the proper time.

Mr. Simpson replied that some of the bondmen knew the sale was to be made at that time.

The city's answer to the suit brought Tuesday by Attorney Ingie Carpenter to restrain the city from completing the power-bond transaction was filed yesterday. Attorney Ray C. Eberhart, assistant to Mr. Matthews, stated. The city's court order referred to by Mr. Hellman under which the agreement was entered into is constitutional and it will be taken next Friday to the case be set for early trial.

HARBOR BONDS TIED UP.

Mr. Mushet opened the discussion yesterday morning in the Council for reconsideration of the Council's action Tuesday in ordering all bids on the \$12,500,000 worth of harbor bonds to be returned unopened, by making a motion, seconded by Mr. Allen, for reconsideration. He explained that he had voted with the other Councilmen Tuesday in order that the city might be in a position to move for reconsideration.

"I believe the Council acted yesterday under a misapprehension of facts," Mr. Mushet stated. "The contract with Mr. Hellman for the \$12,500,000 worth of power bonds does not conflict with our right to

HELD .. AS .. HUSBAND .. SLAYER.

Balboa Shooting Suspect Near Collapse at Hearing.

Mrs. Mary M. Campbell.

MRS. MARY M. CAMPBELL, charged with the murder of her husband, Jess V. Campbell, at Balboa on June 27, was given her preliminary hearing at Santa Ana yesterday, and was held for trial in the Superior Court.

The woman is charged with shooting her husband in their tent in Balboa, in the presence of two neighbors. She is said to have fired one shot at him outside their tent, and when he fled into the shelter, she is said to have sent three bullets into his body as he lay on the bed.

The man was rushed to the Santa Ana Hospital, but died before he reached it. Constable J. A. Porter of Balboa arrested the woman a short time later.

During yesterday's hearing, Mrs. Campbell seemed to be on the verge of a nervous breakdown. Her face was white and tense throughout the proceedings and frequently she turned her head and leaned against a woman at her side and sobbed.

On a number of occasions it was necessary for the court to stop proceedings until Mrs. Campbell could be quieted.

Following the introduction by the State of the revolver and the bullet which killed Campbell, a number of witnesses were called. Mrs. Alice E. Carson, who was in the tent at the time of the tragedy, testified that she was sitting with Mrs. Campbell when she fired the shot.

Mrs. Carson said that Mrs. Campbell then followed him in and, leveling her gun, fired three more shots at the prostrate figure.

Prof. Lorentz described in detail the shooting as she declared she saw it from close range. Dr. G. M. Grundy of Balboa, who was the first to reach the man's side with medical aid, and Constable Porter, also testified.

After spending several days in San Francisco, conferring with union leaders and operators, Capt. Charles L. Connelley, who is in charge of the President's Military Commission, returned to Los Angeles yesterday to renew his efforts here to avert a strike of the oil workers.

Officials of the Chamber of Mines and Oils in this city last night said that the oil workers' strike is the latest move of the union workers. However, they stated they had no information as to whether the workers are ready to accept a new agreement with the men and the Federal government they will not accept it.

Mr. Kolkoff stated to the committee that bond houses and bank representatives are "very seriously criticizing" the action of the Council in the manner in which the bonds were sold. Once during his talk he asserted the city would make money even if the Hellman contract was invalidated. This was in response to a statement by Mr. Hellman that the plan for selling the harbor bonds might invalidate the Hellman agreement.

Mr. Criswell stated that an issue of \$12,500,000 worth of San Francisco municipal bonds bearing only 3.5 per cent were sold at a small premium on Monday. He cited this as an indication of the condition of the bond market and declared that the Los Angeles bonds sold under the same conditions would have netted Los Angeles at least \$250,000 more than the Hellman offer.

San Francisco advises to The Times last night stated that the bonds referred to by Mr. Hellman are Hetch-Hetchy bonds sold to the Construction Company of North America for sale in the eastern market at a premium of \$10,000.

Mr. Criswell declared it seemed to him strange that so much activity among the bond men should be noticed on the day after the bonds were sold and the city is definitely tied up with an agreement. He said it appeared to him that the bond men began figuring after some one else won the bid and discovered that they could have made money by offering more, but that such offers were not forthcoming at the proper time.

Mr. Simpson replied that some of the bondmen knew the sale was to be made at that time.

The city's answer to the suit brought Tuesday by Attorney Ingie Carpenter to restrain the city from completing the power-bond transaction was filed yesterday. Attorney Ray C. Eberhart, assistant to Mr. Matthews, stated. KLAN SUES LOS ANGELES
NEWSPAPER FOR LIBEL.

Truth of Tar-and-Feather Outrages by Night Riders in South May be Revealed Here.

A libel suit, the trial of which may throw considerable light on the scores of recent tar-and-feather parties by unknown night riders in all parts of the South, was filed here yesterday by the "Knights of the Ku Klux Klan, a Corporation," against a Los Angeles afternoon newspaper which recently attributed to the Klan this epidemic of assaults upon supposed violators of civil or moral laws.

The Ku Klux Klan demands \$105,000 damages—\$10,000 general and \$95,000 exemplary damages on each of three causes of complaint, based on as many editions of the newspaper in which appeared banner lines reading "Great Ku Klux Outbreak," "Ku Klux Terrorizes South," and "Ku Klux Reign of Terror." In one of the articles, which are quoted in full, the raids were credited to a "secret organization similar to that of the Ku Klux Klan of reconstruction days."

These publications are termed "false, defamatory, scandalous and untrue and published and circulated by the defendant with malice." The complaint, a civil action, was prepared by Attorneys Carroll Allen, Duke Stone and W. S. Coburn. The latter is general attorney of the Ku Klux Klan, who has been in Los Angeles several months organizing the order on the Pacific Coast.

The Ku Klux Klan is described at length in the complaint as "a fraternal, patriotic and ritualistic society of national scope; the corporate purposes of which 'are to promote patriotism towards our civil constitution, honorable peace among men and insure protection for and happiness of our people and love, brotherhood, liberty, justice and fraternity among mankind.'"

The society has a large membership in the United States "particularly in California and Los Angeles," says the document, and its reputation was good in the United States until the publication of the articles in question. "The organization 'is not for profit,' it continues.

"I am not now and never have been a member of the Knights of the Ku Klux Klan," said Mr. Stone. "Its purposes are clearly in its articles of incorporation, which is a public, State and county record. I understand from this that its purposes are good and laudable and I am reliably informed that no violence of any kind or character is committed, intended or countenanced in any way."

"Any secret organization of this character is entitled to be protected from libel. The average individual who is not a member of the organization is entitled to be protected from libel. The average individual who is not a member of the organization is entitled to be protected from libel."

The boy went into the water with two companions to try to learn to swim. Finding himself in deep water, he called for help, but his friends were unable to get him into shallow water.

Capt. A. W. Johnson, deep-sea diver, yesterday recovered the body of 18-year-old Alessandro Serrano, who was drowned in the inner harbor Tuesday afternoon. The diver found the body after all attempts to locate it with grappling hooks had failed.

TRAP ASSERTED SMUGGLER GANG

Police Identify ex-Convict by Finger Prints.

Four Captured in Pasadena With Three Chinese.

Confess Effort to Deliver Orientals, Police Say.

By the Bertillon system of fingerprints, Thomas W. Burke, caught with three other asserted Chinese smugglers, J. B. Selvidge, H. J. Baker and J. J. Turner, was identified yesterday. Federal officers say, as an ex-convict, Burke was convicted at San Jose in 1917 of grand larceny and sentenced from one to ten years in San Quentin. The court board cut the judgment to eighteen months and Burke served sixteen months, as he acknowledged, following his identification, the officers say.

The four were caught at Pasadena by Chief of Police Kelly, the automobile in which they were riding being disabled. In the car were three Chinese, Leon Wing, Leon Wing and Leon Hing. The seven were held by the Pasadena official until he could communicate with Immigration Inspector-in-Charge Conaty, who immediately sent inspectors to bring the men to Los Angeles.

Statements were made by all the Chinese and by Burke and it is understood that a full confession followed by all concerned. The contraband men were picked up, it is said, by the white men about six miles this side of Calexico, where they had surreptitiously crossed the line. It does not appear that the white men assisted them in crossing the border. When they drove out of the desert, they took the wrong road at Beaumont, and instead of going through Riverside and Pomona, they traveled the Foothill Boulevard and came to Pasadena where a tire blew out and the men were apprehended by the officers. It is said that information was elicited as a result of the examination by the local immigration officers that \$150 each was to be paid on the delivery of the Chinese to a Los Angeles agent, who is known. Further arrests are expected.

CHINESE TO REMAIN.

Long-pending Case to Omit Oriental Dropped by Government.

The case of Wong, Peng, a subject of China, involved the question of deportation, which has been pending ever since the days of former U. S. Commissioner Hammack, who died more than four years ago, was finally disposed of yesterday. The Kongolian will be allowed to remain in this country. The government could not prove that he was illegally here. His case was dismissed by Commissioner Long.

TO OBSERVE BUDDHA BIRTH ANNIVERSARY.

The anniversary of the birth of the Buddha will be celebrated Sunday at the Buddhist Temple, 209 South Broadway street. Buddhist priests will conduct services, after which there will be a program as follows: Addresses by Dr. N. F. W. Haelelino, R. E. French, R. G. Pandit, Rev. R. E. Blight, U. Oyama and Rev. T. Sakano; songs by Miss H. Taira; recitations by Miss T. Mayeda and Miss M. Hayashida; tri, violin, Mr. Uyeyugi; piano, Mr. Nagai; flute, Mr. Osumura; benediction, Rev. E. Kurita.

WILL PLEAD GUILTY TO SALE OF BOOZE.

George Corlies was arraigned before U. S. Commissioner Long yesterday on the charge of violating the national prohibition law. He is charged with having sold a pint of corn whiskey. He "acknowledged the corn" and will plead guilty. His bond was fixed at \$500.

EX-DEPUTY DENOUNCED, SENTENCED.

Ruperich Gets Jail Term as Result of Drinking and Auto Smash-up.

"As an officer of the law you should have lived up to the law, instead of violating them. You should not have become intoxicated in the first place and you should not have undertaken to drive an automobile in the condition in which you were. The accident that brought you into this court occurred while another was at the wheel of the automobile and therefore the charge against you is only one of intoxication. These accidents must stop; therefore it is the judgment of this court that the defendant be confined in the City Jail for the period of thirty days." This is what Police Judge Chambers said yesterday to George Ruperich, former deputy sheriff, who was arrested early on the morning of July 23 after an automobile in which he was riding crashed into a cigar stand at First street and Broadway and wrecked both the automobile and the cigar counter. The rear driver Mrs. Letty Farrell, wife of Paul Farrell, a prisoner in the County Jail. Mrs. Farrell was arrested following the accident and charged with driving an automobile while intoxicated.

According to Detective Sgt. Baldridge who made the two arrests, Ruperich, who at the time was a deputy sheriff, had been on an automobile ride with Mrs. Farrell. The two had been to Sunland and had secured some wine. Just before the accident, Ruperich, who had been driving the automobile turned the wheel over to the woman and the accident followed. Yesterday the former deputy sheriff entered a plea of guilty and asked for sentence. Police Judge Chambers after delivering a scathing lecture from the bench ordered the prisoner to jail for thirty days. Mrs. Farrell, according to police records, was bound over on a charge of driving an automobile while intoxicated and is now at liberty on bail.

U.S. LAW SCHOOL TO RETAIN QUARTERS.

Announcement was made yesterday by Charles E. Millikan, assistant to the dean of the college of law, University of Southern California, that the board of control of the college of law has decided to retain quarters in the Tajo Building for at least two more years. It had been proposed that the college of law be removed to a building on the campus of the university. Extensive improvements have been made in the quarters in the Tajo Building, where all classes of the college of law will continue to be held.

The second term of the summer quarter at the college of law will open next Monday. A full course of subjects for both old and new students will be offered. The classes will be held in the late afternoon and evening. The subjects offered include mining law, suretyship, sales, patents, taxation, real property, public utilities, trial practice and admiralty. Judge Edwin D. Evans, formerly dean of Drake University law school, has been added to the faculty and will offer the courses in public utilities and trial practice. Clark L. Tamm, C. Van Etten, Frank L. A. Graham, Lawrence L. Larrabee, W. S. Allen and Edward W. Tuttle will complete the faculty for this term. Registration for these courses is now open.

PAINTING OBJECT OF SUIT. Blanche Dougan, who owned a painting by Auguste Toulnoche, sent it to H. B. Crouch & Co. to be sold last March 14, the net price to her to be \$1200. The value of the painting was \$2000, she says. In a suit filed yesterday against Crouch & Co., she declares that the painting was not sold; that the defendants failed to return it to her and that it has a hole broken through it. She demands \$2000 damages.

BLIND HORSE'S HIRE TOO HIGH.

Not Worth Dollar a Day, Small Claims Court Rules.

Defendant Pays and Doesn't Wait for Change.

Case Involving Commission on Auto Appealed.

Whether a blind horse was worth \$1 a day to the man who hired it was the question at issue yesterday in one of the first cases to be tried in the Small Claims Court presided over by Justice Hinshaw during this month.

George A. Grubb was the fourth person to file a complaint in the new tribunal in the local township. He presented a claim of \$13 against Frank Provo of Oceansmouth. He asserted that he had hired a horse out to the defendant at \$1. The defendant declared he had used the horse only eight days and declined to pay for more than that.

"I don't think the horse was worth \$1 a day," said the defendant, "especially when it was blind and I was always afraid of being arrested for driving it."

"No," said the court, "I don't think a blind horse is worth that much. I will allow 75 cents a day, giving judgment for \$5." The defendant slapped down a \$10 bill and went out without his change. Now Clerk A. G. McVay is holding the extra \$1 for him.

SAVANTS GO NORTH.

Will Attend Berkeley Meeting of Science Association.

Dr. Arthur A. Noyes, director of the Gates Chemical Laboratory of the California Institute of Technology, Dr. George E. Hale, director of the Mt. Wilson Observatory, Dr. James E. Bell, professor of chemistry, and Dr. W. N. Lacey, associate professor of chemical engineering at the California Institute of Technology, have left for Berkeley to attend the meeting of the Pacific Coast division of the American Association for the Advancement of Science, to be held at the University of California today, tomorrow and Saturday. This division of the association met in Pasadena two years ago under the auspices of the California Institute and the Mt. Wilson Observatory.

At the meeting this week, Dr. Noyes will present two papers. One of these is a paper by Dr. Noyes and Dr. R. G. Dickinson, research chemists at the institute, on "Crystal Cleavage in Relation to Crystal Structure." The other is a paper by R. M. Henson, teaching fellow at the institute, on "The Crystal Structure of Potassium Cyanide." Dr. Noyes and Dr. Hale will also attend the research conference of the Pacific Coast institutions, to be held in connection with the meeting of the American Association for the Advancement of Science.

DROPS DEAD: SEEK KIN. Bert Richey, secretary of the Hennessy (Okla.) Commercial Club and brother of E. M. Richey of Los Angeles, dropped dead yesterday on the streets of El Reno, Okla. His mother in Hennessy is trying to locate the brother in Los Angeles.

Indoors and outdoors—morning, noon and night, Palm Beach Suits tailored to Robinson's 35 specifications meet the needs of discriminating men.

Men's Palm Beach Suits, \$22.50

The most practical of summer suits. No longer does it spend half its days at the cleaners—For Palm Beach cloth now comes in three shades, natural, sand and bluish green, while it retains the lightness of weight that only Palm Beach Cloth may claim. Robinson's Palm Beach Suits bear the mark of Robinson's tailoring. Good Suits and good to look at—\$22.50. And Trousers, \$5.95. Palm Beach Trousers look well with separate coats. Gray, sand or brown—one may have a choice. And a real investment they are, at \$5.95.

FIRST FLOOR—HOPE STREET ENTRANCE

Men's Shirts of Imported Madras

The 34 requirements known as Robinson Specifications do not apply to Suits alone. They apply to Men's Shirts. The fabric from which these Shirts are made was imported by Robinson's. Then it was tailored to Robinson Specifications. Stripes and figures—one may have his choice. They are priced beginning at \$7.50.

FIRST FLOOR

Men's Terry Cloth Robes

Bath Robes are Beach Robes at this time of the year. And every man who wears one knows the luxury of its warmth after a dip in the surf. These come in various colored patterns and weights. There are Imported Robes and Domestic Robes—a wide choice of each. They are priced beginning at \$7.50.

FIRST FLOOR—HOPE STREET ENTRANCE

Beach Parasols \$4.95

The sun feels good—oh, very good indeed—until the day after—Then a Beach Parasol at its regular price seems a trifle worth having. Before the next week-end a Beach Parasol at a Special price will seem too good to be true. 100 Beach Parasols, in many gay colors, with strong jointed poles that make them easily carried in a car, have been reduced a very great deal. They may now be had at \$4.95.

FIFTH FLOOR

Card Tables \$3.50

Folding, leatherette covered Card Tables that are strong and entirely able to stand up to the most exciting of games, may be had for this small sum. Needless to say, they have been more. Priced at \$3.50.

FIFTH FLOOR

Mirrors 25% Off

Reflecting taste and proclaiming it to all who enter gives the Mirror almost an unfair advantage in a room. But it may be always complimentary if it is the right Mirror in the right room.

Three large Colonial Fireplace Mirrors in panel effect are framed in gold and colors to harmonize with the color scheme of the room.

Then there are Mirrors for oval console tables, buffets, over chiffoniers, between beds and all the places that mirrors should go.

A splendid assortment at 25% less during August.

SEVENTH FLOOR

Satin Petticoats Double to Hips \$5.00

Heavy Satin Petticoats that have been priced at nearly twice this sum will cause a flutter on Thursday.

They are cut on straight lines and made double to the hips. They are finished with a row of hemstitching. They come in flesh and white.

Thursday—\$5.00.

THIRD FLOOR

The August Sale of Home Furnishings

To be beautiful, even luxurious—a home need not be expensive.

Good taste, supplemented perhaps with a few suggestions from Robinson's Interior Decorator Service, good judgment of values, and—happy time—shopping now at Robinson's August Sale of Home Furnishings.

These are better assets than just money. And Robinson's August Sale helps the home maker with fine craftsmanship at small cost.

Ruffled Curtains

How refreshingly cool and pretty is a window framed in ruffy white curtains! And during August their price is so low that any room can afford their summery lightness. 54 Pairs of Ruffle Swiss Curtains are 2 1/4 yards long and are marked at, a pair, \$2.95. 180 Pairs of Ruffle Swiss Curtains—figured with dots and other designs—are 2 1/4 yards long, and are marked, a pair, \$3.75. Dotted Grenadine Ruffle Curtains of the same length may be had for \$4.95.

SEVENTH FLOOR

Rag Rugs

Hundreds of Rag Rugs—and how popular they have become!—are to be found in the August Sale of Home Furnishings for the home. They include both Imported and Domestic Rugs—the hit-and-miss variety, and the braided kind. There are all sizes and colors. The Braided Rugs are both oval and round, ranging in size from 18x36 inches up to 7x7 and 6x9 feet. All are splendid values.

SEVENTH FLOOR

200 Bed Spreads Reduced

200 Bed Spreads for both single and double beds. They come in the Crochet and Satin Mar seilles styles. They have been greatly reduced for the August Sale. A few of the values to be had are given below: 62x86 Honeycomb Spreads are priced at \$2.25. 78x88 Honeycomb Spread are priced at \$2.65. 78x88 Satin finish Spreads are priced at \$3.65. 80x90 Satin finish Spreads are priced at \$4.65.

SECOND FLOOR

Mattresses 25% Off

They may make all the difference in the color of one's world—and one might never be the wiser. Never Stretch Mattresses of fine quality come in sizes for twin beds and double beds. The Twin Bed size ranges in price from \$10.00 to \$22.00, Less 25%. The Full size, \$12.00 to \$30.00, Less 25%.

SECOND FLOOR

Many children innocently cheated out of the very food they need daily

Everyone knows that health is the most valuable asset of life. From birth to maturity is the "construction period."

A robust and healthy child will usually develop into a vigorous man or woman. But malnutrition will invariably hamper normal growth and when the child reaches maturity he or she is anemic, poorly nourished and liable to disease.

Many children today are innocently cheated out of the very foods they need. Some parents, either through lack of knowledge, or carelessness, do not provide those foods which strengthen and nourish the growing child.

It is the duty of parents to think for the child in these matters.

Grape-Nuts, the well-known food made of whole wheat flour and malted barley, served with milk or cream, is one of the most nutritious foods in the world. It provides the elements necessary to nutrition and is a balanced food.

Quite aside from its superior nutritive value, is its delicious appetite appeal. Especially attractive with fresh fruits or preserves.

Grape-Nuts is served and sold everywhere—in leading hotels and restaurants; at lunch counters; in every good grocery store in every city, town or village in the United States. Where you can't find Grape-Nuts—you won't find people.

Grape-Nuts—the Body Builder

"There's a Reason"

The New Suits \$39.50

It is still very proper to look slender. In fact, it isn't quite proper to look otherwise—But the miss who would be fashionable need not be slender to look that way—The New Suits take care of that! The one illustrated defies even a very plump lady to show her plumpness. She just has to be a sylph! Tritone is the material of which these are made. And it is tailored—as simple lines must be tailored!

And all it costs to be supremely smart for autumn is \$39.50.

Industrial Progress Is Reflected in This Bank's Growth

AS THE CUSTODIANS OF FUNDS FOR
SAFETYKEEPING, the banks are useful.
AS THE BACKBONE AND BULWARK
OF INDUSTRY, they are indispensable.

The millions of dollars deposited in the
WELLMAN COMMERCIAL TRUST &
SAVINGS BANK are not idle. They are
developing the wheels of industry, developing the
resources of this city, State and Nation—
carrying American products to the world's
market places and helping to give employ-
ment to thousands of willing workers.

In clearer evidence of the progress of indus-
try can be cited than the remarkable growth
and expansion of this bank, which has taken
an active part in this development.

WEST HAS EDGE IN POWER COST.

State Owns Huge Supply of
Potential Energy.

Rates in East About Double
Charges on Coast.

Expect to Harness Streams
in Twenty Years.

BY H. G. BUTLER.
Former Power Administrator for
State of California.

The 8,000,000 horsepower of potential
electrical energy in California's
streams—only one-sixth of which
is now in use—could be developed
and could be laid down in the New
England States, would bring every year, at existing
rates, the enormous sum of \$1,000,000,000. Developed and used in
California it would cost the consumers but half that amount.

If the present rate of growth in the
power industry continues—and there is not the slightest reason to
think that it will not continue—the
year 1941 will see the California
power streams completely harnessed. It will see also a greater
difference between power rates in the
East and West. Comparing New
England's rate with California's, the
ratio is now about 2 to 1. But the
future power of California, and all
the West, will be hydroelectric, and
in New England and the East steam-
electric—steam generated from fuels—
constantly increasing in cost.

So in twenty years the difference
between the two rates cannot fail to
be even more to California's advantage
than it is now. But with no
change, the California producer will
have an edge on his eastern competitor
of \$50,000,000 per annum in power costs.

WEST HAS ADVANTAGE.
He has a proportionate advantage
today. The average rate at which
the product of the power companies
of the State is sold is about 2 cents
per kilowatt hour, a figure that, of
course, is lower than the average
lighting rate, which varies in San
Francisco, for instance, it is from 3
cents as a maximum, to 1.5 cents as
a minimum. But the average rate
which is governed more by the price
paid for commercial than for light-
ing power, is the important factor.
At 2 cents per kilowatt hour the
power companies of California can,
with confidence, invite comparison
with rates for similar service any-
where.

The remarkable growth of the
West during the last twenty years
has been largely due to just this fact.
In that time the population of the
United States as a whole increased
115 per cent, in the West it in-
creased 403 per cent. The assessed
value of all property in the United
States grew 481 per cent; in the
West 1341 per cent. The annual
value of manufactured products
jumped 1070 per cent in the United
States and 2095 per cent in the West.
During the last ten years the in-
crease in bank clearings in the
United States was 437 per cent and
in the West 1218 per cent.

It is not necessary to go far back
in the history of the State to reach
a time when it was a bold and ad-
venturous thing for a power company
to spend a few hundred thousand
dollars in a power plant 200 miles
away in the mountains, with its dams
and canals, and its tower lines car-
rying a thin copper thread to bring
the product to market.

Such an investment was followed
by a period of feverish activity in
securing consumers to utilize the
output. There were factories here,
and mines and irrigation pumps,
but they were using other forms of
energy. Salesmanship was neces-
sary to bring about the substitution
of electric power.

Today electricity has no competitor
in these fields. If it cannot be
secured the projected factory and the
proposed pumping plant are not con-
structed. In the process of building
up and developing the community,
the sequence is, first the power,
then more factories, more farms and
more intensive cultivation, more
mines opened up. From these come
more transportation, more people—
all demanding more power—and a
strong and healthy growth.

HUGE PROGRAM.
In marked contrast to the situa-
tion a few years back, the power
companies of the State today esti-
mate that it will be necessary for
them to raise and spend \$100,000,000
in the next ten years for new plants
and the appurtenances required to
bring this power to the consumer.
They no longer have to devote time
to the missionary work of making
converts to the electric motor.

Fifters million dollars can be spent
by the Pacific Gas and Electric Com-
pany on the Pit River, by the Great
Western Power Company on the
Feather, by the San Joaquin Light
and Power Corporation on the San
Joaquin, or by the Southern Califor-
nia Edison Company on the Big
Creek project without definite ar-
rangements for the sale of the
energy. The market will be ready
when the power is. Indeed, during
the last three years the demand has
always been greater than the supply,
and the problem of the future is
not in selling power, but in getting
money enough to develop it.

DOUBTLY ENDOWED.
In its energy-producing natural
resources California has been doubly
endowed by nature—it has both wa-
ter power and oil. But its oil can-
not be depended upon to carry out
any program of general State de-
velopment. In a recent address, a
prominent oil man of the Coast said:
"We cannot continue to burn more
oil than we produce, and we cannot
continue indefinitely to count on
over our present production. There
can be only one answer to the situa-
tion—some one who is burning oil
today will have to use another
source of energy tomorrow."

He might have added, "the only
other source is hydroelectricity."

The oil companies are not required
to keep California supplied with oil.
The power companies, being public
utilities, and as such having distinct
obligations to the public, are com-
mitted to the definite undertaking
of seeing that California's hydro-
electric development is sufficient, not
only to carry the increasing load in
its own field, but to take up their
burden when the oil companies lay
them down.

This is the power program and, to
quote from the address again, noth-
ing can be more certain than this:
"We must realize that the success
of this program is vital to our pros-
perity, and that success can come
only through the substantial en-
couragement of community sup-
port."

RESISTS .. LURE .. OF .. THE .. FILMS.

Screen Scouts Now Invade Office of Recorder of Deeds.

Miss Charlotte Johnson.

THE big film companies, whose
scouts are all the time looking
for types of pretty girls, have
invaded the department of the Re-
corder of Deeds. Offers have been
made to several of the young wom-
en, but there is an air of
tranquillity about the recorder's of-
fices who has, so far, resisted the
lure of the cinema companies.

TO COMPLETE BOXING RING.
Completion of the boxing ring in
the stadium of the Hollywood Amer-
ican Legion Post will be celebrated
tomorrow noon. Mayor Cryer will
drive a golden nail and be enter-
tained at luncheon to be served by
members of the post. The stadium,
which seats 8000 persons, will be
opened on the 12th inst., with a box-
ing program.

ing, however, that salaries are paid
for good work, and not for looks.

Miss Charlotte Johnson is one of
the young women in the recorder's
offices who has, so far, resisted the
lure of the cinema companies.

Same Old Story But a Good One.
Mrs. Mahala Burns, Savannah, Mo.,
relates an experience, the like of
which has happened in almost ev-
ery neighborhood in this country,
and has been told and related by
thousands of others, as follows: "I
used a bottle of Chamberlain's
Colic and Diarrhoea Remedy about
nine years ago and it cured me of
flux (dysentery). I had another at-
tack of the same complaint three
or four years ago and a few doses
of this remedy cured me. I have
recommended it to dozens of people
since I first used it and shall con-
tinue to do so for I know it is a
quick and positive cure for bowel
troubles."—Advertisement.

PLAN TO UNITE FORCES OF LAW.

City and County Officers to
Co-operate in Work
Against Crime.

Plans for organization of
the city and county police
forces into a compact body
were discussed yesterday at a
meeting in the Sheriff's office,
attended by Sheriff Traeger,
Undersheriff Biscailuz, Deputy
Sheriff Larimer, superintendent
of the county constabulary,
and representatives of
forty-two constables. Chief
of Police Jones will be repre-
sented at a meeting called
for September 3.

The Sheriff plans to perfect
the organization at the next
meeting. The personnel of
the proposed homicide squad
also will be decided then.

The Sheriff plans to con-
nect the city police depart-
ment with the county forces
by telephone and to have both
departments work together.

ACCOUNTING DEMANDED

Share of Profits from Contract at
Harbor Sought in Court.

Vernon Cruikshank and repre-
sentatives of the Channel Construc-
tion Company were in Judge
Hewitt's court yesterday, defend-
ing the suit of Ernest E. Ward and
Alexander Yeoman, seeking an ac-
counting for the work done in ex-
cavating Knob Hill, Los Angeles Har-
bor.

Mr. Ward asserts he was a part-
ner in the enterprise and should
share in the profits of the contract.
He contends that Mr. Cruikshank
disregarded his rights and formed a
corporation known as the Channel
Construction Company, to which all
of the contracts were assigned.

Completion of the boxing ring in
the stadium of the Hollywood Amer-
ican Legion Post will be celebrated
tomorrow noon. Mayor Cryer will
drive a golden nail and be enter-
tained at luncheon to be served by
members of the post. The stadium,
which seats 8000 persons, will be
opened on the 12th inst., with a box-
ing program.

the most powerful engine

In the world depends on its source of power

The refining of Red Crown gasoline is based on a thorough scientific study and knowledge of the fuel requirements of the automobile engine.

It has been demonstrated that Red Crown gasoline gives maximum efficiency at minimum expense. Keep a record of your trip mileage, also note the power and flexibility of your engine with Red Crown gasoline, and like thousands and thousands of motorists, you, too, will be convinced that Red Crown, "the gasoline of quality," is the gasoline for you.

Red Crown gasoline is available wherever you go, making it possible to standardize on high-quality fuel and avoid the irregularities of engine performance that come from changing fuel.

Look for Standard Oil Service Stations and for the Red Crown sign at garages, service stations and other dealers. There you will be able to get good service with Red Crown gasoline.

The Gasoline of Quality

CARROLL'S BIFF TOPPLES OAKS.

Dixie Whangs Out a Triple in Eighth Clearing Sacks.

Crandall Wobbles in Seventh but Soon Braces.

Killefer Plays Foxy When Cut Off from Plate.

ST. LOUIS (Mo.) Aug. 3.—The Oaks today kicked a victory from Recreation Park to Los Angeles, which ought to be some kind of a booting record. They bunched two errors in the eighth inning, so that instead of retiring the side without a run, they left a set up of three men on and only one down.

WEDNESDAY MORNING.

Directors of Cubs Riled at Nine's Showing Ask Evers to Take Rest.

WILL KILLEFER CUBS' LEADER.

Catchers Now in Charge
of Chicago Nine.

Evers Asked to Take
Few Days Rest.

Managers Are Pleased at the
Team's Showing.

(SPECIAL DISPATCH.)
CHICAGO, Aug. 3.—Johnny Evers
was not to uniform this afternoon,
when the Chicago National League
team battled the Boston
Red Sox in a double-header. In his
place was Bill Killefer, the veteran
catcher, who directed the play of the
team.

President William Veech an-
nounced that Evers was on the hos-
pital list, but it was rumored that
he had been discharged and that
Killefer was to be his successor.

Evers has not been having the
best of health since the season opened. He
has had it that there was dissen-
sion in the club and that many of
the players were dissatisfied with his
handling of them and the
team.

THE BOARD OF DIRECTORS of the club
met yesterday and it was
announced that Evers was to
take a rest for a few days
and Killefer tried his hand at run-
ning the team.

PROSPECTED
FIELD GIVES OIL.

(BY A. P. NIGHT WIRE.)
NEWARK, Aug. 3.—An oil well
was brought in today in the Mat-
amoras field, south of Newark,
N. J. It was announced here by
one of the directors of the com-
pany that the well was
drilling the well. A heavy
flow of oil was developed when the drills
reached the 2000-foot level, they
said.

(BY A. P. NIGHT WIRE.)
TORONTO, Aug. 3.—Roy Hottel
and William McFadden were
hanged today for the murder of
Leonard C. Sabine last March when
they tried to rob his drug store.
McFadden uttered a word as they were
led to the scaffold. During the
trial, each accused the other of
being the murderer.

(BY A. P. NIGHT WIRE.)
STOCKTON, Aug. 3.—Henry
Warren, prominent rancher of the
Waterloo-Lockford district, died
today from poison, which, in an
anti-mortem statement, Warren de-
clared was self-inflicted. He had
been dependent, friends said.

Downey Ready to Mow Down Wilson Again.

(SPECIAL DISPATCH.)
NEW YORK, Aug. 3.—Bryan
Downey is satisfied that he is justly
entitled to the middleweight cham-
pionship, which was awarded him by
the Ohio Boxing Commission, but
he stands ready to repeat the per-
formance and will take on Wilson or
any other middleweight in the world
to prove that he is entitled to the
leading honors of his division.

Jimmy Dunn, manager of Downey,
had a conference with Tex Rickard
in the latter's office at Madison
Square Garden this morning regard-
ing a return engagement with Wil-
son. Tex is trying to get into com-
munication with Wilson or his man-
ager, Marty Killies, but up to date
has been unable to locate either of
them.

It rests entirely with his manager
as to whether Rickard will stage a
return fight between the two prin-
ciples.

NEW YORK, Aug. 3.—Promoter
Tex Rickard announced today he
had wired Johnny Wilson of Bos-
ton offering to stage a twelve-round
bout between him and Bryan Downey
at Cleveland for the middleweight
title at Boyl's Thirty Acres, Jer-
sey City, September 2.

Rickard conferred today with
Jimmy Dunn, Downey's manager,
who accepted the terms contained
in the offer to the Cleveland
puffist.

been dependent, friends said.

GODSHALL BEATS NAEVE.

(BY A. P. NIGHT WIRE.)
SIOUX CITY (Iowa), Aug. 3.—
Play in the singles event of the
seventh annual interstate tennis
tournament being staged here nar-
rowed to eight survivors with the
completion of the third round.
Myron Hutchison of St. Paul, win-
ner in his match with A. E. Hum-
phrey of Sioux Falls, S. D., will
play his fourth match with Harold
Godshall of Los Angeles, who de-
feated Leo Naeve of St. Joseph,
Mo., today.

By virtue of his victory over
George Blocking of Omaha, Carl
Meyer of Kansas City, Mo., will meet
Philbrook Smith of Ames, Iowa, in
the fourth round. Smith defeated
W. U. Knight of Minneapolis in
their third round match. The de-
feat of Carl Stuckeman of Sioux
Falls by Wray Brown of St. Louis,
will give the latter the right to play
a fourth-round match with F. M.
Enright of Dell Rapids, S. D., who
beat Harry Coffin of Los Angeles.
Paul Langeburg of Sioux City,
winner in his match with Charles
E. Verret also of Sioux City, will
play Clarence Sanders of St. Paul,
who defeated Clark Stone of Sioux
Falls.

First round play in the doubles
event and the boys' and junior
tournaments was completed today.

CONNECTICUT BARS FILMS.

(BY A. P. NIGHT WIRE.)
NEW HAVEN (Conn.), Aug. 3.—The
State Boxing Commission has de-
cided that moving pictures of con-
tests will not be allowed in Con-
necticut. This recommendation has been
submitted to Gov. Lake.

Moosa King, Yale boxing in-
structor and chairman of the commis-
sion, said today that the commis-
sion decided it would not permit the ap-
pearance of Jack Johnson, former
heavyweight champion, in this state.
"The commission," he said, "stands
for clean sport."

Boxers who are matched to com-
pete in this state but live elsewhere
will be requested to send their pho-
tographs, that they may be iden-
tified before entering the ring. News-
papers will be allowed to attend
all the weighings. No "batle-
royal" will be permitted.

Failure to secure convictions in
the trial of the seven former White
Sox players was disappointing to
President Ben Johnson of the
American League, but he declared
in a statement today that a "very
good lesson had been taught."

"The trial of the indicted players
and gamblers was closed yester-
day, uncovered the greatest crime
it was possible to commit in base-
ball," President Johnson said.
"The fact that the outfit was
freed by a Cook county jury does
not alter the conditions one iota
or minimize the magnitude of the
offense," he added.

None of the American League
players who were acquitted last
night of an alleged criminal con-
spiracy to throw the 1919 world
series has any immediate prospect
of being restored to organized base-
ball, according to a statement issued
today by Judge E. M. Landis, na-
tional baseball commissioner.

"Regardless of the verdict of
jurors," said the statement, "no
player that throws a ball game, no
player that entertains proposals or
promises to throw a game, no play-
er that swears and cheats, and no
player who is a gambler, will be
restored to the game."

"Of course I do not know that
any of these men will apply for re-
instatement, but if they do, the
above are at least a few of the rules
that will be enforced."

"Just keep it in mind that re-
gardless of the verdict of jurors,
baseball is entirely competent to
protect itself against the tricks
both inside and outside the game."

SAN FRANCISCO, Aug. 3.—None
of the former White Sox players, ac-
quitted in Chicago last night will
be permitted to play in the re-
view-Pacific Coast Baseball League, Wil-
ling officers.

SAN FRANCISCO, Aug. 3.—None
of the former White Sox players, ac-
quitted in Chicago last night will
be permitted to play in the re-
view-Pacific Coast Baseball League, Wil-
ling officers.

SAN FRANCISCO, Aug. 3.—None
of the former White Sox players, ac-
quitted in Chicago last night will
be permitted to play in the re-

What's the Matter With Women?

BY DOROTHY DIX.

A man says: "Darn 'em, what's the matter with women, anyway?"

Well, to be exact and frank, there isn't a million things the matter with them. The principal thing that ails women is that they are human and, therefore, full of faults and frailties. Hence, tempers and temperament, and extravagance and vanity, and nagging and unreason, and matters of that sort.

A poor thing at best, but when men are tempted to criticize the weaknesses of the feminine sex let them never lose sight of the fact that Eve was created to Adam's order and that, such as women are, men have made them. Every woman represents the desires, the tastes, the ideals, the teachings of thousands of generations of men, and if men don't admire the result of their handiwork they have nobody but themselves to blame.

A great deal is said about women's influence over men. Well, it is negligible compared to man's influence over woman. Woman's influence over man is the slow attrition of the glacier (that in the course of a few centuries polishes smooth a small spot on a granite cliff, but man's influence over woman is that of the potter over the clay in his hands that he can form into the shape he pleases.

Man gives to woman in small things to please her, but woman orders her whole life to please man. And this is inevitable because in life, and woman is still dependent on him. Her good times and her success still are contingent on his finding favor in his eyes.

A girl may be pretty and bright and beautifully dressed and have all the making that money and family can give her, but unless she makes the right grade with boys she will be a wall flower and with the wrong grade she will be a spinster. A business woman may have every quality under the sun that would fit her to make an ideal wife, but unless she has the masculine fancy she will die in the spinster's retreat. A business woman may possess the financial ability of Hecy Green, but if she happens to have a personality that is repellent to men, she will never get beyond the outer confines of the stenographer's room.

So, in order to get what they wanted themselves, women have had to make themselves into what men wanted, and then, after having put themselves over, according to men's perturbed pattern of family, men come along and say it's all wrong, anyway, and turn it, what's the matter with women, anyway?

It's funny—and pathetic—that the very feminine follies for which men lambaste most severely in women are the very ones that they have most candidly cultivated. Take the love of dress, for example.

When a man gets really eloquent about the weaknesses of women, he begins upon her passion for clothes. He denounces upon the kind of gum drop brain a human being must

Making More Money

Woman Tells How She Became Successful at Insurance.

IF ever you have a chance to meet Miss E. Constance Woodward of New York, who has won fame and fortune in what is usually regarded as a hard field for a woman—the sale of life insurance—you probably would ask her the same question that hundreds of others ask every year: "What is the most necessary quality in selling insurance by the hundreds of thousands?"

"Selling insurance," Miss Woodward would probably continue for half an hour, "is made up of confidence, persistence and imagination. And, of the three, the last is the most important in my mind. A woman must have the vision, the ability to see what the policy means. She must be able to present the question in a manner that appeals to their prospect and they must be quick to see the value of the policy. It is the most necessary quality in selling insurance by the hundreds of thousands."

"Selling insurance," Miss Woodward would probably continue for half an hour, "is made up of confidence, persistence and imagination. And, of the three, the last is the most important in my mind. A woman must have the vision, the ability to see what the policy means. She must be able to present the question in a manner that appeals to their prospect and they must be quick to see the value of the policy. It is the most necessary quality in selling insurance by the hundreds of thousands."

to speak upon the subject of women's clothes. Not before.

Men also criticize women for not being frank and outspoken, and for telling white lies. They even go so far as to say that women have only a rudimentary sense of honor.

Perhaps, but if it is true, the sin lies at man's door instead of his sister's. Don't forget that up to this generation, women have been practically perfect to men—so far as individual freedom went, and double dealing, and lies are ever the characteristic of the slave. As long as you must wheedle everything you have out of some one above you, you must use your tongue in flattery and falsehood.

And what man, even yet, will stand for the naked truth from his wife, or who doesn't want her to cajole the things out of him that he knows belong to her as her right? If women, as a rule, have small minds, interested in little things, if they like to gossip, and in personalities, it is because men have forced them to live in a narrow way, so that they had no chance to broaden out.

These are the things that are the matter with women, brother. Women are as men have made them, and when men want different women, they must make different women. For women are the most adaptable creatures on earth, and the most anxious to please.

Fired.

"Hear about Bill being fired out of his house yesterday?"

"Was he behind in his rent?"

"Naw; the place burned down."

GASOLINE ALLEY—AND HE'S A CRANK ON EFFICIENCY AT THE OFFICE.

LETTERS TO
"THE TIMES."

LOS ANGELES HARBOR, July 22.

(To the Editor of The Times):

W. F. Thorne advances the singular opinion that to take issue with the intolerance of others is itself intolerance. I shall not argue that proposition. But I wish to address myself to Mr. Thorne's high regard for the Constitution of the United States. I am sure that Mr. Thorne will agree with me that we are under as great an obligation to observe the spirit of the laws as the letter of them. Many of us recall what the late Theodore Roosevelt used to say about "mere law honesty." And many of us agreed with him that reprehensible deeds were sometimes done in a perfectly legal manner, taking advantage of legal technicalities.

Now, it appears to be a historical fact that one of the principal purposes of the fathers in establishing the Constitution was the protection of minorities from the majorities. There were some powers that bare majorities were not to have, some things they were not to do.

But in order that considerable majorities might legally obtain any power or do any act of government, they might desire, a method of amending the Constitution was devised—a method which, under conditions then prevailing, would make amendment difficult and insure that nothing but the insistent demand of a considerable majority of the people should accomplish it.

For a great many years this method of amending the Constitution has worked well until certain selfish minds, aided by changed political conditions, discovered its weakness. A Prohibition party had for some years made little progress when the Anti-Saloon League appeared upon the scene, not as a party, but as a faction, and, employing guerrilla methods of political warfare, shooting now members of one army, now members of the other, finally had both so intimidated that they vied with each other in subservience.

Formed in Ohio, the league, after numerous small successes, made its first "big killing" when it beat Gov. Myron T. Herrick for re-election in 1905. The movement grew and its tactics were extended until at length the league obtained the balance of power practically everywhere and, holding in its hands the political lives of candidates, was able to compel their advocacy of prohibition and to force legislators to do its will.

Thus there came about a situation that the framers of our Constitution could not foresee and provide against. They thought they had secured the rights of minorities; it was their intention to do so—but the Anti-Saloon League subverted that intention by amendments to the Constitution may be ratified, viz: By the State legislatures or by State conventions. The latter would be far more certain of acting with regard for the people's wishes because conventions would be composed of delegates selected by

the people for that sole purpose. But

it is a significant fact that our representatives in Congress never prescribe that method and the power of selection is theirs. We all know that the reputation of State legislatures is not high.

Q: How much current does an electric flat iron consume?
A: Electric irons come in weights of three, four, five and six pounds. The lighter consumed about 350 watts and the heaviest about 550. The four-pound iron is probably the one most popular.
Q: Is it possible to get a collection of West Point songs?
A: A new book of forty-two "West Point Songs—Songs of the United States Military Academy" has been recently edited and published by Lieut. Philip E. Rorer, bandmaster, U.S.M.A., and P. C. Mayer, organist and choirmaster, U.S.M.A.

AGED MAN GONE; HAD LARGE SUM.

Apartment-House Owner Victim of Foul Play.

Appeals to Police to Start Search.

Home With More Than Eleven Thousand.

Police that George Cole, 74, a retired apartment-house owner, may have met with foul play when he left his home with \$11,500 on his person Tuesday morning. L. H. Green, a stepson, asked the police last night to investigate.

Cole, who lives at 824 South Main street, was last seen leaving his home at 8 a.m. Tuesday, presumably to close a business deal. At that time he has not been seen from, his stepson told the police.

CASHES CHECK.

The missing man had been at his home on Monday, where he cashed a certified check from the Merchants' National Bank for \$11,500. He came to Los Angeles that afternoon and had the check cashed at the Merchants' National Bank, Mr. Green said. He returned to his apartment late Monday morning, when the stepson and remained there until Tuesday evening.

It is known by his wife or by the business deal but it is not known what Mr. Cole had told the police who cashed his check that he wanted the money to close a business deal.

IN ILL HEALTH.

The missing man had been in ill health for several days and had the habit of spending much of his time in Westlake Park, Mr. Green said. Mr. Green said the fear that Mr. Cole had been hatched to rob him. The missing man is described as being tall, weight about 175, gray eyes, gray hair and a mustache. He wore a black suit and a black hat. Mr. Green said the police that a reward of \$100 will be paid for information leading to the location of Mr. Cole.

Imported Other Woman, Charge in Wife's Suit.

Mrs. Louise Glissen is named as "other woman" by Mrs. Louise Glissen in a divorce action filed yesterday in the County Court. Mrs. Glissen in the document filed with the court an affidavit that her husband took an "oriental" woman to his home and that she was transferred and deposed to the hotel. Mrs. Glissen said she was transferred and deposed to the hotel. Mrs. Glissen said she was transferred and deposed to the hotel.

PERFECT IN HOTEL FIRE IS SET FREE.

all the meals, scrubbing the dishes, making the beds and scrubbing the floors during four and one-half years of married life. He had enough, but continuing to complain about the work he did around the house were too much, according to Huber Jenkins. Yesterday asked that he be granted a divorce from Mrs. Jenkins.

complaint, filed in the County Court, recites numerous incidents in which the wife criticized him and work before his friends and neighbors, causing him mental anguish. The husband is petitioned for on grounds of cruelty, and a permanent settlement agreement was appended. The court granted the divorce July 22.

Bullock's August Clearance

Thursday Fourth Day

—Have you been to Bullock's August Clearance yet? Have you heard? Have you seen? It hardly seems possible that so many people could have done so much shopping at Bullock's during the three days just gone and still some *not* know—not *realize* the opportunity that this event is offering.

—At ordinary times the great inroads made by thousands of shoppers would have caused a serious depletion of stocks—but not so in August at Bullock's. Certainly not so *this* August in *any* section of the store. You ought to see the rich supply of Clearance Merchandise that is ready to go forward at the signal—that is still pouring in, in fact—then you would know why

Thursday—Fourth Day—Should be Important

—It should be important because of many Clearance offerings all its own. It should be important alike to those who have already taken advantage of Bullock's August Clearance Savings and to those who have not. It should be important for a thousand reasons—Merchandise reasons—Opportunity reasons.

Thursday Should be Important for the Laces and Tunics

—For the Silks, Woolens, Cottons, Linens, Flannels—the Trimmings—which will be brought forward out of a bountiful variety of Clearance Values—on Bullock's Second Floor—

—If you have no more time than to take a flying trip around Bullock's First Floor Thursday you should certainly do so. You would not let the opportunity to buy those Silk Bags and Leather Bags go unnoticed if you knew what a tempting occasion their event is going to be. You certainly would want to share in the thousands of yards of Ribbons which are so expressive of Value—and so rich in variety and beauty. Which is true about the Neckwear—sample lines, very beautiful, to be strong Clearance items. Handkerchiefs, Stockings, Veilings, Toilet Goods, Stationery, Notions and Gloves—don't by any means fail to fill your Glove needs now.

—And every woman should allow herself the privilege of a trip through Bullock's Style Sections, which have been so filled with Clearance activities. Such values in Suits, Coats, Dresses, Skirts, Hats, Blouses for Women and for Misses, are all the more important by being, in many cases, so illustrative of the new styles—yes, just think—*New Styles for Clearance*—

—Many liberal offerings of value include Women's Underwear, Sweaters, Knit Capes, Shoes. Children's wear, including Dresses, Coats, Suits, etc., for Girls of High School age—take away many of the perplexities of provisioning for School Days—on Bullock's Fourth Floor.

—And likewise on Bullock's Fifth Floor—Clearance Sales of Boys' Clothing, Boys' and Girls' Shoes, Children's Underwear, Stockings, Gloves—make school apparel much less expensive than many people anticipated. Wheel Goods and Toys are also interesting many with economy in mind.

—But if your thoughts are occupied with Home Furnishings—Bedding, Rugs, Draperies, Lamps, Cedar Chests and Furniture—make Bullock's Sixth and Seventh Floors your rendezvous, Thursday—enter into the spirit of Clearance—Compare August Clearance prices at Bullock's with others you have seen—and be sure that Bullock's August Clearance is the occasion which will solve many of your economy desires—

—Do the same in Bullock's Men's Store, in Bullock's Art Needlework and Gift Store, including the Balcony where Cut Glass, Pottery and Bric-a-brac sound the note of Clearance—carry your investigation into Bullock's Store of Motor, Travel and Golf if your desires turn that way—or into Bullock's Basement Store, where there is such a width of choice and a wealth of Opportunity that it is safe to say "No one should stay away"—

—Everywhere in every section of the store—preparations have been vigorous and inclusive for Thursday—Fourth day of "The One Sale of the Year." It should prove a resultful day—it should be witness to a throng of shoppers at Bullock's who know and expect—

—And therein lie the reasons why energy will not lag nor enthusiasm lose its vigor. Bullock's August Clearance recognizes its responsibility as something more than a sale—something wider in scope and character—something that includes in its elements the functions of an interpretation of Purpose and Personality as well as an Expression of Determination of a Business to measure its development by the making of Friends—and to grow more and more to be known for Strength in Service and Sincerity.

Suggesting the Range of Opportunity

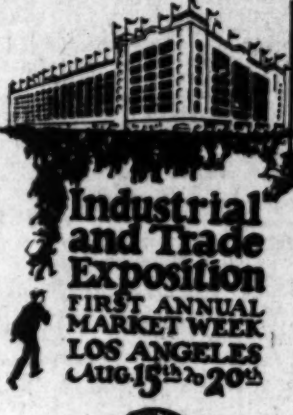

- First Floor Clearance Values include Gloves, Stockings, Handkerchiefs, Hand Bags, Toilet Goods, Neckwear, Veilings, Ribbons, Jewelry, Silverware, Stationery, Men's Shirts, Hosiery, Pajamas, Underwear, Ties, etc.; Art Needlework, Gifts; Women's Sportswear; Travel, Motor and Golf Supplies.
- Second Floor Clearance Values—Silks, Woolens, Cottons, Linens, Flannels, Trimmings and Books.
- Third Floor Clearance Values—Women's and Misses' Suits, Coats, Dresses, Skirts, Furs, Capes, Millinery and Blouses. Bridgeway—Wash Dresses, Negligees, Petticoats, Robes, etc.
- Fourth Floor Clearance Values—Women's Shoes; High School Girls' Dresses, Suits, Coats, etc. Women's Underwear; Children's and Infants' Wear; Corsets.
- Fifth Floor Clearance Values—Young Men's and Boys' Clothing; Boys' and Girls' Shoes, Stockings, Gloves, Children's Underwear, Women's and Children's Knit Underwear; Wheel Goods, Toys, etc.
- Sixth Floor Clearance Values—Draperies, Lamps, Cedar Chests, Rugs, Bedding.
- Seventh Floor Clearance Values consist of some very attractive offerings in Furniture.

Thursday—Fourth Day Of Bullock's August Clearance "The One Sale of the Year"

—There is indeed inspiration deeper than that of mere sales-making — lending distinction and difference to Bullock's August Clearance — as much a part of Thursday, Fourth Day, and what it should mean to everybody with a purchase to make, as Value and Variety—and as much a reason why no one should stay away—

—Thursday—Fourth Day—of Bullock's August Clearance—"The One Sale of the Year"—in every section of the store—

Bullock's Will be open Saturdays until One o'clock every Saturday throughout the year.

EDISON COMPANY READY.

Says It Is Able to Finance Vast Project; Bonds Needed for City Program.

(Continued from First Page.)

undertaking ever tackled in the West, and would be of incalculable value to the Pacific Slope, but that it would not be at all difficult for a corporation or municipality to go broke in trying to handle it.

While Commissioner Norvell could not outline the proposed plan, he admitted that the Edison company is planning to go to the job in a way somewhat different from that which the Nevada, Arizona and Imperial Valley people have been considering, but, this, he says, will be something for the Federal Power Board to weigh and decide.

OTHER STATES PLANS. It was learned yesterday that Wyoming, Colorado and Utah contemplate calling for large blocks of irrigation water before turning the Colorado River over to the Federal Government for power development. Northwestern Utah expects to call for enough water to irrigate at least 500,000 acres lying between Thompson and the Wyoming line. None of the water could be diverted into the river, it is said. This project would open up a marvellously rich country which would be a waste, arid land, and would probably create another such section as the great fruit belt of the West.

Which borders the eastern Utah line. Commissioners Norvell and Buchanan stated that the Edison company has filed on several power sites located above the Boulder Canyon dam site, and these could be used, not for developing power, but for controlling water at flood stages and thereby saving the cost of putting in the giant dam which may reach 700 feet high, develop as much as 150,000 horsepower, and cost not less than \$500,000,000.

Both men admitted that the Edison company has made a long step in the direction of demonstrating that it knows how to tackle a big power proposition, but they agreed that authority in filing will have no bearing upon the ultimate assignment of power rights.

PUBLIC COMMERCE FIRST. "The welfare of the public is the first consideration in this great power project," declared Commissioner Norvell. "What is for the common good is the thing which will be given final consideration. It is for Arizona and Nevada to grant permits for the big project after plans have been approved by the Federal Power Board."

One of the commissioners hinted that he expects to see a super-corporation come into existence to handle the big power proposition. It looks for the development of enough hydroelectricity to propel all the trains, autos, stationary engines and other machinery in the Pacific Coast States. For ten years, he thinks, there would not be enough market to absorb the supply of power, and "juice" should be cheap, a condition which, he thinks, would be a big factor in the work for the rapid rebuilding of this city as a great industrial center.

In discussing the plans of the Edison company at yesterday's conference, John B. Miller, president of the corporation, said:

"We are in position to meet the demands of the States bordering on the Colorado, affording them the protection they are entitled to, and meeting the requirements of the Imperial Valley and neighboring lands, without cost to them, except insofar as they individually desire to join with us as stockholder-partners."

"The project is being developed from the standpoint of flood control, second irrigation, and, third, power development. Fortunately, there is no conflict between these interests, as a proper development of the Colorado River will insure adequate provision for flood control, irrigation and power."

"The experience of many years of water power development and electric transmission of electric power, during which time world's records were set, has enabled us in building one of the largest power developing and transmission systems in the world, has enabled us to bring to the attention of the public the fact that we do not look with apprehension upon the difficulties which must be overcome in making this enormous development, probably the greatest in the world."

BANKERS ATTRACTED. "The growth of water power development in popular favor, and the continuous success in financing our properties over a period of twenty years, has attracted to our projects some of the largest and most successful investment bankers in the country, who are ready to rely upon us to provide the funds for the purchase of bonds, and to distribute these bonds to the individual investors throughout the country, thus insuring more than two-thirds of the cost of the project. The remaining part of the cost is to be secured through the sale of dividend paying stock in the enterprise, to the people generally through the entire Southwest, along lines exactly similar to those being followed successfully by our company. The actual ownership of the project will be in the hands of the people at large through the sale of dividend paying stock; thus vesting the ownership in the people served."

"With the granting of the final Federal permit, and Federal Power Commission authority, we will be in a position immediately to begin construction work on the project. The whole project would be developed under a fifty-year license from the Federal Power Commission, by the terms of which the government would retain the right to take over the property as a going concern at the end of the period by paying only the actual investment."

GREAT POSSIBILITIES. "The potential power possibilities of the Colorado River are very great, and all of this power may be developed under our proposed cooperative plan of associating with irrigation power companies through the entire area to be served, comprising all or parts of seven States. The millions of acres of land which would be distributed to consumers under public regulation, without discrimination as between individuals or communities, is a thing which is in a position at this time to be how low these rates will be, but the interest permits of only a reasonable return, retaining for the sole benefit of the ratepayers the lower cost of construction and maintenance operation under private initiative.

"Our project provides for complete control of the river from the standpoint of flood protection and irrigation and leaves the power up on the stream, making possible the reclamation of the water for power purposes through the provision of a dam, which may be available for a number of years, developing its own power."

"The present demands for power in Southern and Central California are a little more than \$40,000 horsepower, in addition to which there are pressing demands for new developments in the bordering States. The sum of these demands is, however, not sufficient to immediately absorb two large developments, and duplicate investment of many millions of dollars in parallel lines. Therefore, in order to secure the most economical development from all standpoints including flood control, irrigation, power and low rates, with good service to the people, the project must be considered as a whole, and the power development made in such units as the market will absorb. Under parallel construction the interest on idle investment would be so great as to seriously delay, if not to completely paralyze, the whole development."

"Because of the size of the undertaking, and its unquestioned tremendous benefits to all in the Southwest territory, complete understanding and earnest co-operation of the people is necessary to insure its development at an early date. Misunderstandings result only in delay."

Charge Forgery of Government Liquor Labels.

A complaint was filed before U. S. Commissioner Long yesterday against Lee Fisher, 2124 Malabar street, charging him with violation of the national prohibition law. Fisher was taken into custody.

It is said by the prohibition enforcement officers that Fisher has been engaged in selling liquor bearing a counterfeit certificate of the government that it was bonded goods and high proof. It is also stated that twenty-two pint bottles of "jackass brandy" were found at the Fisher home, and already labeled "Bottled in Bond."

TAKEN AS PICKPOCKET. Suspect Awaiting Trial Arrested Again on Theft Charge.

Joe Fegelman, 27 years of age, known to the police as a pickpocket and now waiting trial in the Superior Court on a grand larceny charge, was again taken into custody late yesterday afternoon. Patrolman W. C. French and locked in the City Jail, charged with having picked the pocket of Bernard Odell of the Northern Hotel. Fegelman was arrested in a hotel at Fifth and Main streets a short time after the robbery of Mr. Odell, and papers that had been in Mr. Odell's pockets were found, the police say, in the prisoner's clothing.

According to several witnesses, Fegelman robbed Mr. Odell of his purse, which contained \$10, on a street car near Fourth and Main streets. Persons who saw the robbery notified Traffic Officer French and the arrest followed.

Fegelman has a long local police record, having been arrested more than a dozen times as a pickpocket. According to police records, he was at liberty on bail at the time he was taken yesterday.

FANTASY IS OFFERING. Oriental Number Chosen by Frank C. Egan for Midsummer Party.

"The Temptation of Buddha," the original song and dance fantasy which Frank C. Egan, head of the Egan Dramatic School, has chosen for his part of the program at the theater-studio midsummer party on the new Cuneo-Rose Roof next Saturday evening, will appeal to lovers of oriental mysticism as well as to the charm of those who appreciate beautiful dance movements.

Jean Du Boulier has the part of Buddha and Mlle. Frager directs the dance numbers, which are interpreted by Elizabeth Keyana, Mlle. Marvin and Mlle. Over. Other artists in the ensemble including Josephine Warner, Cecile Jaffe, Madolyn Maxwell, Myra Lee, Violet Goodie and Capitola Jaqueman.

M. Du Boulier will dance with Mlle. Frager, Patrick Calhoun has charge of the stage and lighting effects.

NABS PAIR IN FIGHT. Policeman Seizes Burglar Suspect; Glim Smashed in Battle.

After having smashed a number of show cases in a pawnshop near Fifth and Main street yesterday, a pair of burglars were nabbed by the police at large through the sale to them of capital stock; thus vesting the ownership in the people served.

"With the granting of the final Federal permit, and Federal Power Commission authority, we will be in a position immediately to begin construction work on the project. The whole project would be developed under a fifty-year license from the Federal Power Commission, by the terms of which the government would retain the right to take over the property as a going concern at the end of the period by paying only the actual investment."

JURORS IN EXTORTION CASE FAIL TO AGREE. After a three-day trial, the jury in the case of W. A. Cornwell, accused of extortion of \$150 from Rose and Joe Mustachio upon threat of arrest for keeping a large quantity of wine in their cellar, failed to agree yesterday in Judge Conley's court. The jury was discharged and the case continued until October 12, when the case of W. M. Warn, jointly accused, will come before the court. Both accused are well known police officers. Paul Schenck was defense counsel.

HELD AS DEFRAUDER. Ira Stubbs, Los Angeles real estate operator, was held to answer to the charge of defrauding the city of \$150, from Marvin V. Clawson on Jan. 10, 1920. Testimony indicated that Stubbs told the complaining witness that he could buy an option on a property here, and then sell it to another person for more money. It was declared by Dep. Atty. Gen. Costello that the name used as the prospective purchaser of the property was fictitious. The court released the defendant on his own recognizance because of his physical condition.

FEW FADDISTS DECEIVE THEM.

Many Cities Fear Los Angeles is a Grab-All.

Unaware Boulder Canyon Plan Not People's.

Storm of Protest Rises from All Southwest.

From all over the Southwest comes a storm of protest against what has been described as the power plan of the city of Los Angeles centering about the Boulder Canyon project.

Unaware that the so-called Los Angeles scheme to grab priority in power rights is not a Los Angeles scheme at all but a scheme on the part of a few municipal ownership faddists who happen to live in Los Angeles, nearly every newspaper in Southern California and Arizona, besides not a few in Utah, has taken a crack at the City of Angels.

Among those who mistake John R. Haynes and some of his colleagues on the Board of Public Service Commissioners and the Bureau of Power and Light for the real people of Los Angeles are the members of the interior counties committee of the Riverside Chamber of Commerce, which committee has just sent out 15,215 copies of a statement denouncing the city of Los Angeles for its Boulder Canyon and up-State "power grab" plans. This statement, of which a copy has been sent to every publication, every State, county and city official, every Chamber of Commerce, commercial body, women's club and labor organization in California, says in part:

FROM THE TEXT. "The city of Los Angeles is evidently attempting to again shut out the interior counties and obtain control not only of the high Sierras, but also of the Boulder dam site—this in spite of the fact that the Imperial Valley has already spent approximately \$100,000 on the preliminary work."

"The interior counties committee also wishes to issue a very grave warning in calling attention to the fact that the League of Municipalities is in serious danger of being dominated by the Los Angeles power bureau. This committee is led to believe that the League of Municipalities is to be used, not for the benefit of the State, but for the aggrandizement of the city of Los Angeles while the rest of the State is left in the lurch."

"In the face of the efforts of the city of Los Angeles to delay the Colorado River power on which the interior counties have all their hopes, the city is also through the control of water power throughout the high Sierras, which water power rightfully belongs to the use of all the people, but which has been filed upon and is being held to serve the ambitions of the city of Los Angeles. There is very good reason to believe that the purpose of Los Angeles is to delay the Colorado River project, but if the fact were otherwise, two things would tend to postpone indefinitely its realization under Los Angeles direction and leadership: one, the prolonged litigation which would result from the adoption of the Colorado River development."

PORTERVILLE VIEW. An editorial in the Porterville Recorder on July 18 said: "In the face of the efforts of the city of Los Angeles to delay the Colorado River power on which the interior counties have all their hopes, the city is also through the control of water power throughout the high Sierras, which water power rightfully belongs to the use of all the people, but which has been filed upon and is being held to serve the ambitions of the city of Los Angeles. There is very good reason to believe that the purpose of Los Angeles is to delay the Colorado River project, but if the fact were otherwise, two things would tend to postpone indefinitely its realization under Los Angeles direction and leadership: one, the prolonged litigation which would result from the adoption of the Colorado River development."

"If we understand the situation correctly, Los Angeles wants to pile up huge power resources in order to offer power at very low rates to industrial enterprises to induce them to locate in Los Angeles. The securing of industrial and agricultural lands in a landless ambition, if not carried to an extreme at the expense of other people, the interior counties, including especially the farmers, have rights, too. If power is to be sold to Los Angeles to industrial concerns at ridiculously low rates, it is not to be paid to, and it won't be the taxpayers of Los Angeles alone, but the farmers and small cities of the interior also."

FROM RIVERSIDE. Resolutions adopted July 14 at a public meeting of representatives of the chambers of commerce and of the public press in Riverside, California, protesting against the actions of the city of Los Angeles in an endeavor to monopolize the water power resources of the Sierra Nevada Mountains and of the Colorado River, and of its attempt to reserve water power for its own use, and to otherwise use its political power and influence to the detriment of the interior counties of California.

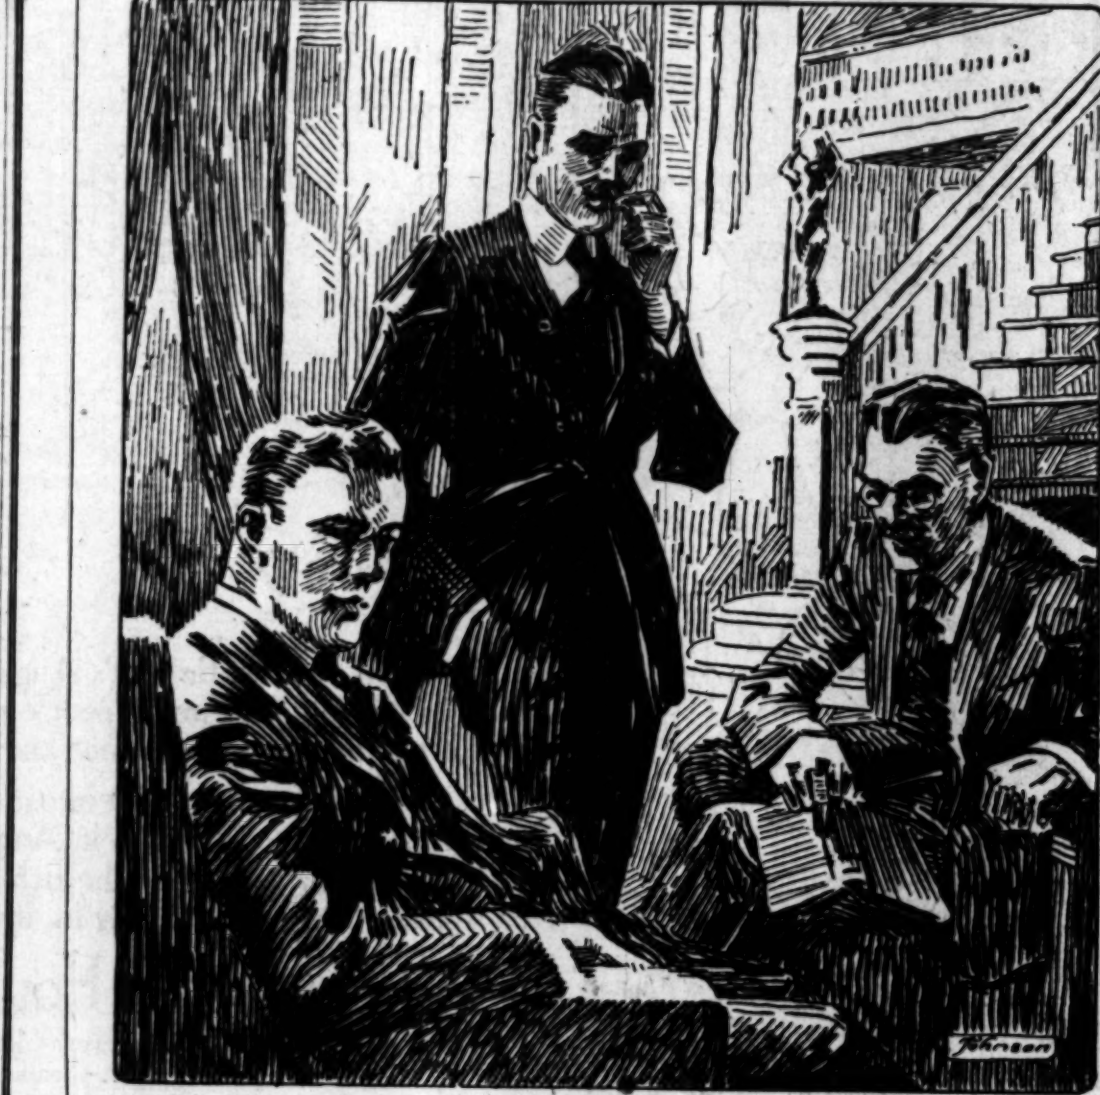

A committee was appointed, says the Coalinga Record, "that will present a petition to the State Legislature, and stated that they had passed an attempt power monopoly of the city of Los Angeles not only in the interior counties of the State, but also in every part of the State possibly interested."

The Dinuba Sentinel on May 3, said: "That the Los Angeles water grab is getting to be a vital local proposition is brought to the attention of the public by the information given out in Fresno today that the Pine Flats project is to be hampered thereby. Anything which touches the Pine Flats project will certainly touch a sore spot in Dinuba, which is really the birthplace of the project as a public proposition. Los Angeles cannot afford to step on the toes of the San Joaquin Valley just at a time when the valley is struggling to feel that it was really more tributary to Los Angeles, if tributary at all, than to San Francisco."

Senator Dennett in a statement taken while attempting to state exemption from State taxes. To us it seems at this time that the people of the State must take from the choice of the State, but also in every part of the State possibly interested."

"The storm of protest against the great power monopoly the city of Los Angeles attempts to establish continues to grow. During the past week our desk has received many marked copies editorially protesting against the proposition that would make Los Angeles a dispenser of power costing it less than it does private concern because of its exemption from State taxes. To us it seems at this time that the people of the State must take from the choice of the State, but also in every part of the State possibly interested."

"The storm of protest against the great power monopoly the city of Los Angeles attempts to establish continues to grow. 8.50 and 10.00 Manhattan Shirts	6.85

Men's Summer Oxfords 6.75

An opportunity to save on seasonal footwear—these being the popular light weight brogues men are demanding because of their comfort and general good looks. Dark brown calfskin—flexible welt soles and easy rubber heels—a genuine "buy" at 6.75! Specially priced for Friday.

(Hamburger's—Men's Store—Main Floor—Friday)

GRIN OVER ETIQUETTE AND AUTOS.

Councilmen Are Sarcastic Over Foibles and Fancies of Mayors of City.

Foibles and fancies of Los Angeles mayors, present and past, came in for considerable discussion yesterday by the Council Finance Committee when C. J. Sweeney, in charge of the police station garage, asked for advice as to how new automobiles may be obtained for Mayor Cryer and Chief of Police Jones.

Mayor Cryer wants an open car, said Mr. Sweeney, instead of the sedan left over from the Snyder administration. "It is somewhat of an old ladies' car," remarked Councilman Crisswell. "But I don't like the idea of getting a new car for every new Mayor," asserted Councilman Mallard. "For instance, when Mr. Woodman became Mayor he was

riding in a Ford and he wanted a new car right away." The importance of having a presentable machine for the use of the Mayor was mentioned by Mr. Sweeney, who added something about etiquette. "Ah, real etiquette demands that important visitors be escorted about in a closed car. Nothing could be finer," said Mr. Mallard.

The result was the suggestion to Mr. Sweeney that he reduce his proposition to writing after seeing what bids he can get on the cars now in use by the Mayor and Chief.

TO RETURN TO CHINA. (LOCAL CORRESPONDENT.) REDLANDS, Aug. 3.—Dr. George Lewis, for fifteen years in charge of the Baptist mission field at Ung-kung, China, who has been here for two years on a leave of absence, given because of the serious illness of his wife, who died here several months ago, will return to China in September. He will take his two sons with him, while his daughter will be left with relatives in this country. Dr. Lewis is credited with being one of the most successful missionaries in the Chinese field. He says that the experience in China has been similar to that of other fields, that the poor people were first attracted to Christianity, but that now many men of influence and wealth have become converts.

Industrial & T. EXPOSITION Aug 15 to 20

FRANCE LA

and Trotsky Won Recognition by U.

BY GEORGE IREY CABLE-EXC. BERLIN, Aug. 4.—Senator Joseph C. E. of the Senate for one of the reasons for the French perhaps an accord with the Far East, where he fears the imperialism is pushing the side of Russia," said Senator. Both the American and Russian people hate a policy of realistic expansion. To prevent the restoration of trade with Russia, through recognition of the Russian government, is to take its place among the nations.

France is the first American to return from Russia in many months. Its presence in Berlin was his impression. I want to Russia I admit, the Senator, "but now I shall produce a real support that resolution in Russia."

RELEASED WITH LEADERS. Sweeney expressed himself as one of the greatest men ever met," he said, "Lenin
